The JCT Minor Works Form of Contract David Chappell, 2004-07-12

The Agreement for Minor Building Works (MW 98) is the most widely used of the JCT forms of contract, not only for simple short contracts of moderate price for which it is intended, but also for much larger projects for which it is often not suited at all. As a result, contractual difficulties can arise, and despite the form's simplicity, an understanding of the legal background to the form is essential. This book explains the practical applications of the form from the point of view of employer, architect and contractor. It provides a straightforward explanation of the legal aspects of the form, supported by flow charts, tables and sample letters.

The Third Edition has been revised to cover the 1998 edition of the form and the range of amendments issued to the contract since the last edition of the book was published in 1998. The new edition also takes account of the Housing Grants, Construction and Regeneration Act 1996, as well as the latest RIBA terms of engagement and a substantial number of additional legal decisions. The book will provide a working tool for all those using MW 98, a useful book with a practicality to commend it to contract administrators.
