

Mow frequently and do not cut lawn too short (over 1/2 the existing grass height). Short clippings deteriorate faster. Short grass deteriorates rapidly in hot weather and invites weed growth.

When mowing in adverse conditions (tall and/or wet grass):

In extremely tall grass (A), mow grass twice. Raise the mower to remove up to 1/2 of the existing grass height for the first pass (B). Then make a second pass (C) to cut grass to desired height.

A—Tall Grass
B—First Pass
C—Second Pass

SAWMOT1710 MCL/DPM AC 270280

Shift to first gear and make a partial cut, using half of the cutting width.

Without a grass bagging attachment, mow uncut grass with left side of mower to discharge clippings over cut grass.

With a grass bagging attachment, mow uncut grass with right (discharge) side of mower to facilitate bagging.

After mowing, be sure to:

Lock parking brake, shut off engine, and remove key.

Wash out clippings from underside of mower deck and from drive belt area using a garden hose and pressure water.

Lower mower to ground.
