

Illustr. 1. Left side view of the No. 47 Baler with power take-off.

GENERAL DESCRIPTION

The McCormick No. 37 and No. 47 Automatic Pickup Balers are low cost machines designed for the medium acreage hay grower who wants to bale his own crop when it is ready rather than wait for the custom baler. These compact balers are highly maneuverable and being completely automatic, require only one man to bale up to 17 tons per hour. The No. 37 baler is equipped to tie the bales with twine only, while the No. 47 is available as a twine tying model (47T) and as a wire tying model (47W). Both balers are regularly equipped

as a power take-off machine, thus saving the cost of the separate engine. If the customer desires, an air cooled engine can be purchased for either machine which will permit using a smaller tractor to pull the machine.

Both balers will bale virtually any forage crop which can be cut and dried and placed in a windrow of moderate size. These balers will also bale straw from a combine for bedding.
