Railway Steel Structures Vivek Bhushan Sood, 2024-08-30 This book covers the basics of fabrication of railway steel structures. It covers the various types of steels, steel sections and structures involved along with fabrication methods. Further, some basics of design, handling and launching of fabricated components are covered, including case studies covering the consequences of errors or shortcuts adopted during fabrication. The latest trends in steel construction, adoption of steel for fast-paced construction, pre-engineered structures and use of steel for station redevelopment projects are also covered. This book aims to help the reader deliver economical and good quality structures speedily without time and cost overruns. This book introduces readers to the advantages and challenges of using steel as a material for railway bridges and other structures. Covers instructions and practices for fabrication of railway steel bridges, duly linking with other aspects like design and erection to provide 3600 views. Reviews the latest developments in the field, including new materials, fabrication techniques and types of structures being adopted. Includes case studies to underline the importance of good fabrication practices and consequences of ignoring the same. This book is aimed at civil and mechanical engineering professionals connected with fabrication and erection of railway steel structures.

**Multi-Span Large Bridges** Pedro Pacheco, Filipe Magalhaes, 2015-06-09 Throughout the last decades, the increasing development of the urban metropolis and the need to establish fundamental infrastructure networks promoted the development of important projects worldwide, and several Multi-Span Large Bridges have been erected. Certainly, many more will be erected in the next decades. This international context undoubtedly justifies the first International Conference on Multi-Span Large Bridges. The Multi-Span Large Bridges book contains the keynote lectures and the extended abstracts of selected papers presented at the Multi-Span Large Bridges International Conference MSLB2015, organized by the Faculty of Engineering of the University of Porto in cooperation with IST, Lisbon University of Minho and LNEC, held in Porto, Portugal from 1st to 3rd July 2015. The most relevant themes covered in the book are Landmark Projects, Conceptual Design, Innovative Construction Methods, Special Foundations and Geotechnical Site Investigations, Life Cycle Monitoring, Maintenance Management, Incidents and Accidents, New Materials and Special Devices, Extreme Loads, Rehabilitation, Safety and Serviceability and Structural Analysis. The Multi-Span Large Bridges book shares the knowledge of several world experts, contains the description of relevant experiences and reports state-of-the-art achievements which definitely will be invaluable to bridge engineers, structural engineers and scientists.
