Uwe Backes, Patrick Moreau, 2011-12-07 The present work deals not only with the well organized right extremism in modern Europe as well as with its function in proper political parties but equally includes two additional broader approaches the militant branches and subcultures that exist including some paramilitary phenomena in Eastern Europe and the broad realm of their political ideas and cultural trends and the influence they exert on European political culture Radical Islam and

International Security Efraim Inbar, Hillel Frisch, 2007-12-12 Radical Islam poses a political challenge in the modern world which is like that of no other radical religious movement Ideologically it is perceived by Western policy makers as threatening the liberal democratic ideology by which most states in the West abide and which most other states rhetorically espouse This book serves as a welcome addition to the intellectual and policy debate on the nature of the radical Islam phenomenon and how to respond to it The collection is divided into three parts the first part seeks to understand the Islamic challenge in broad comparative and historical terms while the second part deals with specific regional case studies which seek to identify patterns of uniformity and variation in radical Islam across a wide swath of terrain The third part is policy oriented suggesting possible responses to the Islamic challenge The contributors include distinguished researchers from Europe North America and the Middle East This book will be of much interest to students of Islamism political violence international security and Middle Eastern politics **Legal Cases, New Religious Movements, and Minority Faiths**

Professor François Bellanger, Professor James T Richardson, 2014-10-28 New religious movements NRMs and other minority

faiths have regularly been the focus of legal cases around the world in recent decades This is the first book to focus on important aspects of the relationship of smaller faiths to the societies in which they function by using specific legal cases to examine social control efforts The legal cases involve group leaders a groups practices or alleged abuses against members and children in the group legal actions brought by former members or third parties attacks against such groups by outsiders including even governments and libel and slander actions brought by religious groups as they seek to defend themselves These cases are sometimes milestones in the relation between state authorities and religious groups Exploring cases in different parts of the world and assessing the events causing such cases and their consequences this book offers a practical insight for understanding the relations of NRMs and other minority religions and the law from the perspective of legal cases Chapters focus on legal political and social implications Including contributions from scholars legal practitioners actual or former members and authorities involved in such cases from various jurisdictions this book presents an objective approach to understanding why so many legal actions have involved NRMs and other minority faiths in recent years in western societies and the consequences of those actions for the society and the religious group as well **Political Islam in South Asia** Are

J. Knudsen,2002 **Democratization in the Muslim World** Frederic Volpi,Francesco Cavatorta,2013-09-13 This book examines the role that political Islam plays in processes of democratization in the Muslim world detailing the political processes that facilitate the collective learning of democratic ways of solving the practical problems of those polities Democratization in the Muslim World represents an important contribution to the debate on democratization and political Islam that emphasises the synergetic effects and global reach of both Islamist and democratic politics It comes to terms with the problematic relationship between Islam and democracy in the uncertain post Cold War post 9 11 world order by highlighting the malleability of Islamic discourses and of its institutional resources as well as the diversity of the political strategies of incumbent regimes to remain in power It combines key theoretical issues and country specific studies of some of the most relevant Muslim polities of the post Cold War and post 9 11 era This text was previously published as a special issue of Democratization and will be of interest to students of Middle East politics governance democracy and human rights

*Islamic Radicalism and Political Violence* Raphael Israeli,2008 The Islamic movement in Israel headed by Sheikh Ra id Salah has turned into a templar like organization which cultivates the Aqsa Mosque in Jerusalem the Temple as its symbol and rallying point Ra id combines spiritual authority with political appeal religious concerns with organizational wheeling and dealing and local popularity with international salience In 2004 he was arrested in Israel and accused of channeling funds to Hamas and the author was an expert witness for the prosecution at the trial After first considering the nexus between religion and politics the Islamic Movement in Israel and Sheikh Ra id the second half of the book examines the trial and its consequences Understanding and Addressing Suicide Attacks David Cook,Olivia Allison,2007-05-30 During the past several years Americans have witnessed the frequent occurrence of suicide attacks by radical Muslim groups The public

has wondered what drives someone to kill himself specifically in order to wreak havoc and destruction While other works address the subject many entirely ignore the ideological religious and cultural appeal of suicide attacks and none can adequately speak to why certain groups choose to use suicide as a weapon while others do not Beginning with a careful consideration of the religious and historical reasons and the justifications that perpetrators find therein for suicide operations the authors reveal how radical groups have co opted various aspects of their faith to provide fuel for their current activities Established policy makers seem helpless to confront this destructive terrorist activity often implying that countermeasures are ineffective and seeming to say we will just have to wait out the phenomenon Even such a well documented policy report as the 9 11 Commission s report failed to address the root of suicide attacks only critiquing technical aspects of the U S security system Focusing on specific attacks their roots their perpetrators and their outcomes the authors are able to shed light on this resurgence of radical religious forces that encourage the use of such tactics and to propose new initiatives and approaches to handling such attacks before and after they occur

### **Reflections on Islam**

George Jonas,2007 The 9 11 attacks shattered modern illusions about Islam as a wholly peaceful faith They raised the possibility that this seemingly new struggle between East and West between secular democracy and Islamist theocracy is just the latest variant of a much older contest between Islam and the non Islamic world that has been now simmering now flaring up for the last 1 400 years If we have failed to see the skirmishes along Islam s perimeters in Kashmir and Kosovo in India and Pakistan in Chechnya and Xinjiang it is simply because we have refused to look In Reflections on Islam award winning author and columnist George Jonas explores a range of issues that have come to occupy our daily attention Is there a difference between Islam and Islamism and does it matter if there is Are we in the midst of a clash of civilizations How is the confrontation between theocracy and democracy manifesting itself outside of the Middle East Was it a mistake to invade Iraq or simply a mistake to stay At what point do liberal impulses on matters such as multiculturalism and immigration become short sighted and dangerous Witty provocative and eloquent this collection of essays written between early 2001 and late 2006 showcases Jonas at his best Reflections on Islam should be required reading for anyone grappling with the defining issues of our age Book jacket
