**Ecological Moral Character** Nancy M. Rourke, 2024-03-01 An ecological model through which we can imagine Aquinas vision of moral character The images we use to think about moral character are powerful They inform our understanding of the moral virtues and the ways in which moral character develops However this aspect of virtue ethics is rarely discussed In *Ecological Moral Character* Nancy M Rourke creates an ecological model through which we can form images of moral character She integrates concepts of ecology with Aquinas vision and describes the dynamics of a moral character in terms of the processes and functions that take place in an ecosystem The virtues the passions the will and the intellect are also described in terms of this model *Ecological Moral Character* asks readers to choose deliberately the models we use to imagine moral character and offers this ecological virtue model as a vital framework for a period of environmental crisis

Research Abuse Associate Professor Ralf Sundberg, 2020-10-19 In his book *Research abuse* how the food and drug industries pull the wool over your eyes Ralf Sundberg discusses questions regarding research in Nutrition from a biological social and economic perspective Today we understand that nutrition is not firstly to provide fuel but more importantly to provide building blocks for the renewal of our cells and tissues But nutritional science has from the fifties and on been surrounded by myths and misinterpretations of the prevalent data Policies and recommendations were formed in the absence of evidence often by experts tied to commercial and political interests In this book Dr Sundberg uses the examples of fat and cholesterol not only to illustrate historical mistakes in this area but also to demonstrate how we humans are subject to so many biases in so many areas In fact researchers as all humans are formed by emotions group thinking hope of success fears of many kinds which many times leads to misconceptions when put on print and regarded as facts and live on for decades Ralf Sundberg a former general and transplant surgeon conducted a remarkable career with transplant pioneers Folkert O Belzer at UW Madison in the mid eighties and with Thomas E Starz at the University of Pittsburgh in the early nineties Having retired from clinical work apart from book writing he is still active in research on diabetes fats and cholesterol He is the author of more than forty scientific papers many published in high ranked journals and has authored a number of books published in Sweden and Norway This is his first book to be published in English
