their representation in scholarly discourses and the fact that they increasingly seem to be at home in separate and sometimes antagonistic political and academic camps We also address the conceptual resources and research tools required to study the unity that lies behind these varied phenomena This collection has a new introduction and brings together papers that arose out of discussions in the European Sociological Association Network on Racism and Antisemitism published in European Societies The chapters relate to current issues in the area of racism and anti-Semitism such as the notable impact of the Israel Palestine conflict on antisemitism in Europe the contested antizionist humour of Dieudonné in France relations between antisemitic and Islamophobic attitudes in Italy and Spain the problem of antisemitic reactions to Islamophobia in Arab media the historical relation of antisemitism to other kinds of racism in German literary discourse and how their study can be instructive for the investigation of antisemitism and Islamophobia today the difficulties Marxists internationally have faced in addressing concerns about antisemitism and current disconnections between racism and antisemitism in the human sciences These papers raise fundamental issues of understanding the modern world This book was originally published as a special issue of European Studies

Operation Al-Aqsa flood Jacques Baud, 2024-03-01 Why did Operation Al Aqsa Flood take place and what were Hamas's objectives What really happened on the ground on October 7th What lessons can we learn from the operations carried out by both sides To answer these three questions and many others Jacques Baud revisits the Israeli Palestinian conflict from its very beginnings Why has it still not found a solution What strategies have Israelis and Palestinians adopted over the past 75 years What is the impact of this conflict on our security What are the options for Israel and Palestine in the coming years In this book of rare clairvoyance Jacques Baud deplores the fact that Western decisions are colliding with international law The question is not who we are for but how the international order created after 1945 should be applied Israel's failure to respect this law is provoking its downfall As with any conflict the solution will not come from emotion but from objective dispassionate analysis and honest mediation Back cover

The Lure of Anti-Semitism Michel Wieviorka, 2007-10-01 Since the beginning of the 21st century France has seen the return of anti-Semitism with attacks desecration of cemeteries insults and threats This book is the outcome of a survey carried out by Michel Wieviorka along with a dozen sociologists He examines different tracks the possible links between anti-Semitism and the presence of a considerable Muslim population in France the hypothesis of a meeting between Islamism and the anti-Semitic extreme left as well as the hypothesis whereby the rise of anti-Semitism is connected with the evolution of the Jewish population in France which is increasingly attracted by a community oriented way of life This book demonstrates that present day anti-Semitism owes as much to factors internal to French society the social institutional and political crisis as it does to the projection of global issues on French soil in particular those which originate in the Middle East He demonstrates that this phenomenon has novel aspects but its more classical features are also borne in mind This rigorous and objective book is the first scientific study of present day French anti-Semitism
