**The Logic of Force** Christopher M. Gacek,1994 This study examines the disparities between the two dominant American political military approaches to the use of force as an instrument of foreign policy The first approach argues that if force is employed it should be used at whatever level necessary to achieve decisive military objectives The second approach argues that certain limits to the use of force may be necessary and acceptable Case studies illustrate how the basic disagreements between the two approaches influence policy making and military decisions Included in the text is discussion of Vietnam Panama the Gulf War Somalia and the former Yugoslavia Minimum Deterrence: Examining the Evidence Keith B. Payne,James Schlesinger,2016-04-14 The National Institute for Public Policy s new book Minimum Deterrence Examining the Evidence is the first of its kind Dr Keith Payne former Secretary of Defense James Schlesinger and an unparalleled bipartisan group of senior civilian and military experts critically examine eight basic assumptions of Minimum Deterrence against available evidence In general Minimum Deterrence does not fare well under the careful scrutiny Proponents of a Minimum Deterrent US nuclear force posture believe that anywhere from a handful to a few hundred nuclear weapons are adequate to deter reliably and predictably any enemy from attacking the United States now and in the future Because nuclear weapons are so destructive their thinking goes no foreign leader would dare challenge US capabilities The benefits advocates claim of reducing US nuclear weapons to the minimum level needed are better relations with Russia and China reinforcement of the arms control and Nonproliferation Treaty billions of defense dollars in savings and greater international stability on the way to nuclear zero As political pressure builds to pursue this vision of minimum US deterrence Minimum Deterrence Examining the Evidence stands as the seminal study to address the many claims of great benefit using available evidence This book was published as a special issue of Comparative Strategy *The Publishers' Circular and Booksellers' Record of British and Foreign Literature* ,1905 **The Publisher** ,1905 *British Books* ,1906 *Publishers' Circular and Booksellers' Record of British and Foreign Literature* ,1905 Monthly Catalog of United States Government Publications ,1995
