

The Millennium Development Goals Report

UNITED NATIONS

2009

Millenium Development Report 2008

Tony Binns, Etienne Nel, Alan Dixon

Millennium Development Report 2008:

Millennium Development Goals Progress Report, Lao PDR Laos, United Nations, 2004 *trade and development report, 2008* United Nations, *2nd Millennium Development Goals Report, Namibia 2008* Namibia. National Planning Commission, 2008 **Global Monitoring Report, 2010** International Monetary Fund, 2010-04-22 What is the human cost of the global economic crisis This year's Global Monitoring Report The MDGs after the Crisis examines the impact of the worst recession since the Great Depression on poverty and human development outcomes in developing countries Although the recovery is under way the impact of the crisis will be lasting and immeasurable The impressive precrisis progress in poverty reduction will slow particularly in low income countries in Africa No household in developing countries is immune Gaps will persist to 2020 In 2015 20 million more people in Sub Saharan Africa will be in extreme poverty and 53 million more people globally Even households above the 1 25 a day poverty line in higher income developing countries are coping by buying cheaper food delaying other purchases reducing visits to doctors working longer hours or taking multiple jobs The crisis will also have serious costs on human development indicators 1 2 million more children under age five and 265 000 more infants will die between 2009 and 2015 350 000 more students will not complete primary education in 2015 100 million fewer people will have access to safe drinking water in 2015 because of the crisis History tells us that if we let the recovery slide and allow the crisis to lead to widespread domestic policy failures and institutional breakdowns in poor countries the negative impact on human development outcomes especially on children and women will be disastrous The international financial institutions and international community responded strongly and quickly to the crisis but more is needed to sustain the recovery and regain the momentum in achieving the Millennium Development Goals MDGs Developing countries will also need to implement significant policy reforms and strengthen institutions to improve the efficiency of service delivery in the face of fiscal constraints Unlike previous crises however this one was not caused by domestic policy failure in developing countries So better development outcomes will also hinge on a rapid global economic recovery that improves export conditions terms of trade and affordable capital flows as well as meeting aid commitments to low income countries Global Monitoring Report 2010 seventh in this annual series is prepared jointly by the World Bank and the International Monetary Fund It provides a development perspective on the global economic crisis and assesses the impact on developing countries their growth poverty reduction and other MDGs Finally it sets out priorities for policy responses both by developing countries and by the international community **The United Nations World Water Development Report 3** World Water Assessment Programme, 2012-05-23 The United Nations World Water Development Report published every three years is a comprehensive review providing an authoritative picture of the state of the world's freshwater resources It offers best practices as well as in depth theoretical analyses to help stimulate ideas and actions for better stewardship in the water sector It is the only report of its kind resulting from the collaboration and contributions of the 26 UN agencies commissions

program funds secretariats and conventions that have a significant role in addressing global water concerns The news media are full of talk of crises in climate change energy and food and troubled financial markets These crises are linked to each other and to water resources management Unresolved they may lead to increasing political insecurity and conflict Water is required to meet our fundamental needs and rising living standards and to sustain our planet's fragile ecosystems Pressures on the resource come from a growing and mobile population social and cultural change economic development and technological change Adding complexity and risk is climate change with impacts on the resource as well as on the sources of pressure on water The challenges though substantial are not insurmountable The Report shows how some countries have responded Progress in providing drinking water is heartening with the Millennium Development Goal target on track in most regions But other areas remain unaddressed and after decades of inaction the problems in water systems are enormous and will worsen if left unattended Leaders in the water sector can inform decisions outside their domain and manage water resources to achieve agreed socioeconomic objectives and environmental integrity Leaders in government the private sector and civil society determine these objectives and allocate human and financial resources to meet them Recognizing this responsibility they must act now Two volume set 336 *Global Monitoring Report 2010* World Bank, International Monetary Fund, 2010-05-04 Global Monitoring Report 2010 The MDGs after the Crisis examines the impact of the worst recession since the Great Depression on poverty and human development outcomes in developing countries Although the recovery is under way the impact of the crisis will be lasting and immeasurable Global Monitoring Report 2009 World Bank, 2009-04-27 A Development Emergency the title of this year's Global Monitoring Report the sixth in an annual series could not be more apt The global economic crisis the most severe since the Great Depression is rapidly turning into a human and development crisis No region is immune The poor countries are especially vulnerable as they have the least cushion to withstand events The crisis coming on the heels of the food and fuel crises poses serious threats to their hard won gains in boosting economic growth and reducing poverty It is pushing millions back into poverty and putting at risk the very survival of many The prospect of reaching the Millennium Development Goals MDGs by 2015 already a cause for serious concern now looks even more distant A global crisis requires a global response The crisis began in the financial markets of developed countries so the first order of business must be to stabilize these markets and counter the recession that the financial turmoil has triggered At the same time strong and urgent actions are needed to counter the impact of the crisis on developing countries and help them restore strong growth while protecting the poor Global Monitoring Report 2009 prepared jointly by the staff of the World Bank and the International Monetary Fund provides a development perspective on the global economic crisis It assesses the impact on developing countries their growth poverty reduction and other MDGs And it sets out priorities for policy response both by developing countries themselves and by the international community The report also focuses on the ways in which the private sector can be better mobilized in support of development goals especially in the aftermath of the

crisis *Africa* Tony Binns, Etienne Nel, Alan Dixon, 2012-01-11 For many Africa is regarded as a place of mystery and negative images where reports of natural disasters and civil strife dominate media attention with relatively little publicity given to any of the continent's more positive attributes Africa has at last begun to receive the depth of interest it has long deserved in the shape of debates about trade aid and debt the Make Poverty History campaign and the UK's Commission on Africa But behind the superficial media facade Africa is a diverse complex and dynamic place with a rich history and a colonial engagement that although short lived was fundamental in determining the long term future of the continent At the start of the second decade of the twenty first century when the world is engulfed in a major financial crisis Africa has the dubious distinction of being the world's poorest continent This book introduces and demystifies Africa's diversity and dynamism and considers how its peoples and environments have interacted through time and space The background and diversity of Africa's social cultural economic political and environmental systems is examined as well as key development issues which have affected Africa in the past and are likely to be significant in shaping the future of the continent These include the impact of HIV AIDS sources of conflict and post conflict reconstruction the state and governance the nature of African economies in a global context and future development trajectories *Africa Diversity and Development* is a refreshing interdisciplinary text which enhances understanding of the background to Africa's current position and clarifies possible future scenarios It is richly illustrated throughout with diagrams and plates and contains a wealth of detailed case studies and current data **Country Report on the Millennium Development Goals 2010** Tanzania, 2011 **Human Green**

Development Report 2014 Xiaoxi Li, 2014-10-10 This exhaustive survey assesses the performance of the United Nations and its member states in all key areas at the same time as laying down a road map for sustainable development in the future Deploying the Human Green Development Index as a new metric for an era in which human survival is intimately dependent on the viability of the Earth as a clean and sustainable habitat the report showcases a vast array of data including HGDI indicators for more than 120 nations It provides a detailed and comparative rationale for the selection of data for the 12 goals and 54 HGDI targets which cover human and global needs into the future The index measures 12 Sustainable Development Goals based on but also extending the eight Millennium Development Goals defined in 2000 The SDGs proposed by a high level UN panel will supersede MDGs in 2015 They focus on ending poverty achieving gender equality providing quality education for all helping people live healthy lives securing sustainable energy use and creating jobs offering sustainable livelihoods They also work towards equitable growth stable and peaceful societies greater efficiency in governance and closer international cooperation With indicators covering everything from air particulates to percentage of threatened animal species in a nation's total and informed by the latest research with inequality adjusted metrics for amenities such as education and healthcare this comprehensive study offers readers not only a wealth of valuable core data but also a well argued rationale for using the HGDI In today's world we cannot view our development as being distinct from

and unaffected by that of the Earth we inhabit or that of our planetary cohabitants The Millennium Development Goals ,2009 **Millennium Development Goals Progress Report, Lao PDR 2008** Laos,2008 Millennium Development Goals Seychelles,2010 **Botswana Millennium Development Goals Status Report** ,2010 **Millennium Development Goals Country Report, 2008-09** ,2010 **National Human Development Report** ,2009 Human Development Report 2013 United Nations Development Programme,2013 The pace of transformations around the world is extraordinarily swift and the consequences will be profound The rapid emergence of the Global South will transform 21st century economics and politics in ways at least as fundamental as those witnessed in the wars and technological revolutions of the 20th century This report seeks to identify how the dynamics of power voice and wealth in the world are changing

Millennium Development Goals (MDGs) Progress in Kenya ,2010 **Human Development in South Asia 2008** The Mahbub ul Haq Human Development Centre,2009-10-01 The Report presents an analysis of the diffusion and adoption of technology particularly ICT in the region and its impact on overall economic growth employment poverty reduction as well the provision of health and education services in the region The report draws from several interesting case studies particularly from India and Bangladesh that illustrate how ICT is being used innovatively to improve the efficiency and transparency in the delivery of public services The Report however reiterates that technology by itself does not result in wonders It has to be accompanied with an educated and skilled population as well as basic infrastructure Regional Development Dialogue ,2012 An international journal focusing on third world development problems

Ignite the flame of optimism with Crafted by is motivational masterpiece, **Millenium Development Report 2008** . In a downloadable PDF format (PDF Size: *), this ebook is a beacon of encouragement. Download now and let the words propel you towards a brighter, more motivated tomorrow.
