Negotiating Identities in Contemporary Africa Toyin Falola, Emmanuel M. Mbah, 2023-08-29 *Negotiating Identities in Contemporary Africa* Gender Religion and Ethno cultural Identities explores the changing dynamics of identities in Africa with a focus on gender ethno cultural and religious identity Toyin Falola and Emmanuel M Mbah argue that because identity defines who we are as individuals or groups studies on African identities must focus on understanding the changing dynamics in the socio economic and political spheres in the continent These chapters cover subjects such as women s career identity gender roles and knowledge childlessness ethnocentrism and democracy cultural identity through theater Black identity in the diaspora and diasporic consciousness Using existing scholarship the chapters in this edited volume challenge our understanding of what identity entails and provide new discussions on the hitherto politicized historiography of some identities in Africa

The Collaborative Research Support Program on Food Intake and Human Function Kenya Project Collaborative Research and Support Program on Food Intake and Human Function. Kenya Project, 1987 *New Challenges and Future Perspectives in Nutrition and Sustainable Diets in Africa* Hettie Carina Schönfeldt, Gloria Essilfie, Yunyun Gong, 2024-05-06 Africa is confronted with the triple burden of malnutrition it is also faced with the triple challenges of poverty inequality and unemployment In many African countries large proportions of the population rely on agriculture not only for their food but also for their livelihoods A transformed agricultural and food system is thus a necessary condition for addressing this double triple challenge Additionally post harvest and food waste and losses reduce the availability of sufficient quantities of safe edible and preferable foods At least one third of food produced at farm level is lost due to inappropriate storage infrastructure and agro processing technologies in developing countries and one third of food purchased is wasted at household and retail level

The State of the World's Biodiversity for Food and Agriculture Food and Agriculture Organization of the United Nations, 2019-03-12 *The State of the World's Biodiversity for Food and Agriculture* presents the first global assessment of biodiversity for food and agriculture worldwide Biodiversity for food and agriculture is the diversity of plants animals and micro organisms at genetic species and ecosystem levels present in and around crop livestock forest and aquatic production systems It is essential to the structure functions and processes of these systems to livelihoods and food security and to the supply of a wide range of ecosystem services It has been managed or influenced by farmers livestock keepers forest dwellers fish farmers and fisherfolk for hundreds of generations Prepared through a participatory country driven process the report draws on information from 91 country reports to provide a description of the roles and importance of biodiversity for food and agriculture the drivers of change affecting it and its current status and trends It describes the state of efforts to promote the sustainable use and conservation of biodiversity for food and agriculture including through the development of supporting policies legal frameworks institutions and capacities It concludes with a discussion of needs and challenges in the future management of biodiversity for food and agriculture The

report complements other global assessments prepared under the auspices of the Commission on Genetic Resources for Food and Agriculture which have focused on the state of genetic resources within particular sectors of food and agriculture
