une recherche collective de longue haleine commencée en 1966 et qui se poursuit à l'heure où paraissent ces pages. Nous proposons d'étudier les rapports de l'écriture dramatique et de la mise en scène nous avons posé en principe que la composition du texte et la mise en œuvre en vue de la représentation des moyens d'expression scéniques seraient considérées comme des aspects complémentaires de la création des éléments interdépendants du langage théâtral. Nous refusons donc de dissocier ces deux éléments constitutifs du spectacle de privilégier le texte par rapport à la mise en scène à plus forte raison de ramener l'étude du théâtre à celle d'un genre littéraire. Cependant les habitudes de la langue confirment l'évidence on ne met en scène que ce qui existe préalablement comme texte ou du moins comme canevas. Et notre analyse a dû distinguer elle aussi ces deux étapes.
