

TYPES OF MAPS

Maps are like special pictures that help us understand our world better. There are different types of maps, each showing different things.

1. POLITICAL MAPS

Imagine a puzzle of countries, states, and cities—this is what political maps look like! They use colors to show us where one place starts and another ends. So, if you want to know which country a city belongs to, you can look at a political map!

Did you know that political maps often undergo frequent updates due to changes in national borders, treaties, and geopolitical events?

2. PHYSICAL MAPS

Physical maps give us a peek at the shape of the land. They use colors to paint mountains, rivers, and deserts. If you're curious about what the Earth looks like without any borders, a physical map is your guide!

Did you know that the Imago Mundi, also known as the Babylonian Map of the World, is the oldest surviving world map, dating back to 700-500 BC.
