20. The following are some technical requirements for the standard version of product X.

Notes:

At a factory visit, one of the sales representatives being very experienced, began his notes and said that fully-built standard configurations were available using hardware in a standard version. At these configurations, the standard version of the product would not be able to handle the maximum data rate. To meet up with this, products that provided better performance, but they were more costly, could be used. He noted that the products he had seen for the standard version of the product were not able to handle the maximum data rate. He noted that the products he had seen for the standard version of the product were not able to handle the maximum data rate.

Table 1 - Standard version of product X
