*Land Reforms, Poverty Reduction, and Economic Growth: Evidence from India* Hari K. Nagarajan, Grid-locked African Economic Sovereignty Victor Warikandwa, Artwell Nhemachena, 2019-02-06 The emergent so called Fourth Industrial Revolution is regarded by some as a panacea for bringing about development to Africans This book dismisses this flawed reasoning Surfacing how investors are actually looting and plundering Africa how the industrial internet of things the gig economies digital economies and cryptocurrencies breach African political and economic sovereignty the book pioneers what can be called anticipatory economics which anticipate the future of economies It is argued that the future of Africans does not necessarily require degrowth postgrowth postdevelopment postcapitalism or sharing solidarity economies it requires attention to age old questions about African ownership and control of their resources Investors have to invest in ensuring that Africans own and control their resources Further it is pointed out that the historical imperial structural creation of forced labour is increasingly morphing into what we call the structural creation of forced leisure which is no less lethal for Africans Because both the structural creation of forced labour and the structural creation of forced leisure are undergirded by transnational neo imperial plunder theft robbery looting and dispossession of Africans this book goes beyond the simplistic arguments that Euro America developed due to the industrial revolutions

**Republic of Mozambique, Poverty Reduction Strategy Paper--economic and Social Plan for ...**, 2005 **Water Governance Decentralization in Sub-Saharan Africa** Joao Mutondo, Stefano Farolfi, Ariel Dinar, 2016-02-12 This book is about the process of water management decentralization in African countries which is seen as a means of advancing river basin management at the lowest appropriate level There are very different stages of implementing decentralization in practice This called for research aiming to understand the following questions i why do some water agencies succeed more than others ii What are the variables involved in such reform process iii which variables have a positive or a negative impact on the implementation of decentralization processes iv Which variables could be affected by policy interventions and how This study aimed to answer these questions through the following objectives i analyze the factors that have potentially affected the results of decentralization process in SSA basins and ii analyze the performance of decentralization process in SSA basins Qualitative and quantitative approaches were used The main findings are that water scarcity is a major stimulus to reform water user associations if not well prepared and trained may deter the decentralization process and being part of an existing treaty over an international basin helps foster the process Conditions improving decentralization performance include scarcity of water resources longer period of implementation bottom up creation and appropriate budgetary support

**World Economic And Social Survey 2008 - Overcoming Economic Insecurity** United Nations, 2009 Youth Employment Programmes in Africa Ramos E. Mabugu, Lucas Ronconi, 2025-10-03 This book investigates youth employment programmes across nine African countries providing important insights into the world s youngest continent by population in which 60% of people are

aged under 25 By 2050 the labour force in sub Saharan Africa is expected to be almost double the size of the labour force in high income countries representing a massive shift in the world s working population and providing a significant challenge for job creation In this book contributors bring together insights from more than 500 in depth interviews and 1 500 focus group participants to consider whether youth employment programmes are effectively reaching vulnerable groups This book tackles the problem of political clientelism in the allocation of benefits and considers the level of coordination that is taking place across programmes and political institutions Combining rich empirical findings with data about labour market outcomes and institutions this book will be an important read for researchers wishing to understand the political economy of youth employment policy in Africa
