Contemporary Mathematics in Context engages students in investigation based multi day lessons organized around big ideas. Important mathematical concepts are developed in relevant contexts by students in ways that make sense to them. Courses 1 along with Courses 2 and 3 comprise a core curriculum that upgrades the mathematics experience for all your students. Course 4 is designed for all college bound students. Developed with funding from the National Science Foundation, each course is the product of a four year research development and evaluation process involving thousands of students in schools across the country.

Contemporary Mathematics in Context Arthur F. Coxford, 1998. Through investigations of real life contexts, students develop a rich understanding of important mathematics that makes sense to them and which in turn enables them to make sense out of new situations and problems. Page 1
