Learning as Development Daniel A. Wagner,2025-11-25 In this groundbreaking second edition of Learning as Development Daniel A

Wagner transforms our understanding of international development by positioning learning at its core. Through a compelling global lens, Wagner demonstrates how education shapes both individual destinies and national futures with real consequences for income, social mobility, health, and well-being. This new edition provides timely perspectives on education's role in an increasingly interconnected and challenged world. The work traces international development from pre-colonial times to today's learning equity movement, explores how people learn across different cultures and contexts, examines the intersection of education with critical global challenges including climate change, migration, civil conflict, and new technologies, and presents cutting-edge research through vivid, context-rich examples. Essential reading for students, practitioners, and policymakers in education, human development, sociology, anthropology, and global development, Wagner's analysis offers fresh insights into human potential for those who care about improving the lives of people across the globe.

Resurgence and Revalorization of Indigenous Knowledge Systems in the Contemporary Society Masenya, Tlou Maggie, Bhuda, Monicca Thulisile, 2025-05-08. Indigenous knowledge is the comprehensive body of knowledge that locals accumulate from life experience, unofficial research, and close observation of their surroundings within a particular culture. It connects the entirety of nature and the components that sustain life to the survival of every human being. Additionally, it gives specific community conditions in respect to the environment and offers workable answers to people's problems. As a result of preserving indigenous knowledge systems, indigenous knowledge may provide value to the community by offering innovative solutions to social, environmental, and economic issues. *Resurgence and Revalorization of Indigenous Knowledge Systems in the Contemporary Society* explores the role of indigenous knowledge in the contemporary society. Furthermore, it discusses the importance of preserving and sharing indigenous knowledge for community development. Covering topics such as epistemic diversity, traditional load, and indigenous curricula, this book is an excellent resource for sociologists, policymakers, government officials, environmentalists, educators, records managers, professionals, researchers, scholars, academicians, and more.

The Education Triple Cocktail Brahm Fleisch, 2018-08-15. The Education Triple Cocktail brings together rigorous quantitative and qualitative research on a new approach to improving foundational teaching and learning for schoolchildren living in working-class, poor, and remote rural communities in resource-constrained systems like South Africa. At the core of this book is the theory and evidence for a powerful new interlocking and mutually reinforcing change model. Inspired by the AIDS treatment story, the three-pronged approach of structured daily lesson plans, appropriate and high-quality educational materials, and one-on-one instructional coaching to help teachers transform their instructional practices in early-grade classrooms shows that it will improve learning outcomes. For education systems defined by low levels of early-grade learning and profoundly unequal outcomes, *The Education Triple Cocktail* offers a theoretically informed, evidence-based way forward. This book will be of immense use to teachers, students of education, policymakers, and parents.

Where to for Provincial Education? Russell Wildeman, Rose Hemmer-Vitti, 2010. South Africa's provincial education departments have been reduced

to provincial administrations for reasons that include the powerful role national government plays in delivering education services This book looks in detail at education spending and asks Can we afford to maintain administrations that cannot possibly change the course of poor quality education and engineer a brighter future for our poor and deprived learners The authors believe this question and the future role of provincial education departments need to be discussed openly and publicly without delay **Drum** ,2006 *Annual Report* South Africa.
