

Memorandum

Dated: 14 January 2023

To: Sales & Marketing Group

From: Praveenkumar Revankar, Product Engineering

Subject: Delay in release timelines of Feature A and Feature B.

Purpose:

The purpose of this document is to notify the cross-functional group about sudden changes in release timelines of Feature A and Feature B and to reinform the group to reprioritize certain tasks for Sales and Marketing for the release.

Background/Context:

We have been working together on our key USP features 'Feature A' and 'Feature B' for targeting their release this quarter. Due to unforeseen circumstances, there is a change in the release timelines and the new timeline will be shared shortly in Scrum of Scrum meeting where a representative from Sales has been invited.

Action:

Even though it looks like a major setback and current activities w.r.t. The release can be paused, there are certain actions that have to be performed in this quarter. The same has been conveyed in Jira, marking the work items with labels "Q1_Paused" and "Q1_Must." Please reprioritize your internal activities based on the labels in Jira and ensure a final plan reflected in Jira on or before 30 January 2023.

Conclusion:

We might be delayed with the release but we are not affecting the business. The necessary strategy is defined and put in place to ensure customers can solve their problems using our support until Feature A and Feature B release.

Thanks,
Praveenkumar Revankar

Theodore Rosenof

Memorandum Paper Economics 24:

Imperial Economic Policy 1917-1939 Ian M. Drummond, 1974-12-15 This book offers a detailed account based on primary source materials from Britain Canada and Australia of the process by which the Empire settlement programme and the Ottawa Agreements were devised It also traces the effects of both placing them in the general contexts of British economic policy making imperial economic diplomacy and the contemporary concern with economic imperialism Its special merits are twofold a solid base in the documents and a development of the historical arguments and assessments with the aid of economic analysis It should appeal to anyone who is interested in British political and economic history or in Commonwealth history especially in the twentieth century *Historical Working Papers on the Economic Stabilization Program, August 15, 1971, to April 30, 1974* United States. Department of the Treasury. Office of Economic Stabilization, 1974 Economics in the Long Run Theodore Rosenof, 2000-11-09 Though understandably preoccupied with the immediate problems of the Great Depression the generation of economists that came to the forefront in the 1930s also looked ahead to the long term consequences of the crisis and proposed various solutions to prevent its recurrence Theodore Rosenof examines the long run theories and legacies of four of the leading members of this generation John Maynard Keynes of Great Britain who influenced the New Deal from afar Alvin Hansen and Gardiner Means who fought over the direction of New Deal policy and Joseph Schumpeter an opponent of the New Deal Rosenof explores the conflicts that arose among long run theorists arguing that such disputes served eventually to set the stage for the emergence and domination of a short run Keynesian approach to economic policy that collapsed under the impact of 1970s stagflation Tracing the subsequent revival of long run theories Rosenof demonstrates their relevance to an understanding of the economy's problems over the past quarter century and to the current debate over public policy Originally published in 1997 A UNC Press Enduring Edition UNC Press Enduring Editions use the latest in digital technology to make available again books from our distinguished backlist that were previously out of print These editions are published unaltered from the original and are presented in affordable paperback formats bringing readers both historical and cultural value **Roosevelt, the Great Depression, and the Economics of Recovery** Elliot A. Rosen, 2005 By insisting that the economic bases of proposals be accurately represented in debating their merits Rosen reveals that the productivity gains which accelerated in the years following the 1929 stock market crash were more responsible for long term economic recovery than were governmental policies Jacket **Impediments to Trade in Services** Christopher Findlay, Tony Warren, 2013-03-01 First Published in 2004 The economic impact of barriers to world trade and investment in services has been thought impossible to measure As a consequence significant global policy initiatives such as the General Agreement on Trade in Services have been concluded in an information void This book challenges the view that impediments to services trade cannot be quantified detailing how these barriers can be measured and their significance estimated The book contains studies measuring impediments to trade and investment in a variety of

sectors including telecommunications finance shipping education and air transport The authors explain how the measures were calculated and show how the results could be used in sophisticated economic models The final part of the book looks at current issues in services negotiations in the World Trade Organisation and the Asia Pacific Economic Cooperation forum The measurements and methods detailed in this work have clear relevance to policymaking on services liberalisation and could be used by both international and regional organisations in services negotiations This work will consequently prove to be an extremely valuable addition to the literature of the field
