Naval Research Logistics Quarterly, 1954 *Mathematical Reasoning: The History and Impact of the DReaM Group*
Gregory Michaelson, 2021-11-20 This collection of essays examines the key achievements and likely developments in the area of automated reasoning In keeping with the group ethos Automated Reasoning is interpreted liberally spanning underpinning theory tools for reasoning argumentation explanation computational creativity and pedagogy Wider applications including secure and trustworthy software and health care and emergency management The book starts with a technically oriented history of the Edinburgh Automated Reasoning Group written by Alan Bundy which is followed by chapters from leading researchers associated with the group Mathematical Reasoning The History and Impact of the DReaM Group will attract considerable interest from researchers and practitioners of Automated Reasoning including postgraduates It should also be of interest to those researching the history of AI 'And I quote...' Elizabeth Knowles, 2018-09-19 Quotations are an essential part of the fabric of the language In And I quote Elizabeth Knowles draws on her experience editing the Oxford Dictionary of Quotations and employs a wide repertoire of examples ranging from the classical canon to contemporary popular culture to illuminate just how and why we quote Her investigation focuses on how we find choose and use quotations in 21st century English but it also leads her back in time to follow the journeys taken by individual quotes as their meaning changes subtly and sometimes not so subtly over the decades and in many cases the centuries In following the often surprising stories of individual quotations we gain an understanding of how they establish themselves and to what degree they can develop a life independent of their original coinage Everyone has their own quotations vocabulary and each reader of the book will think of further items that they would use and wish to explore but the journeys mapped here illuminate the many fascinating ways in which quotations have embedded themselves in the language from the earliest dictionaries of quotations to the online world we experience today *Yearbook of International Organizations 2014-2015, Volumes 1a & 1b (Set)* Union of International Associations, 2014-06-16 Volume 1 A and B covers international organizations throughout the world comprising their aims activities and events *Big Data of Complex Networks* Matthias Dehmer, Frank Emmert-Streib, Stefan Pickl, Andreas Holzinger, 2016-08-19 Big Data of Complex Networks presents and explains the methods from the study of big data that can be used in analysing massive structural data sets including both very large networks and sets of graphs As well as applying statistical analysis techniques like sampling and bootstrapping in an interdisciplinary manner to produce novel techniques for analyzing massive amounts of data this book also explores the possibilities offered by the special aspects such as computer memory in investigating large sets of complex networks Intended for computer scientists statisticians and mathematicians interested in the big data and networks Big Data of Complex Networks is also a valuable tool for researchers in the fields of visualization data analysis computer vision and bioinformatics Key features Provides a complete discussion of both the hardware and software used to organize big data Describes a wide range of useful
