Le handicap en images Alain Blanc, Henri-Jacques Stiker, 2003 L'art modifie-t-il notre regard social sur ce que nous nommons aujourd'hui le handicap ? Ces images issues de la littérature, la peinture, le cinéma, la photographie les suggèrent et visent à trahir souvent l'ambivalence faite d'attraction et de répulsion que nous entretenons avec l'autre si différent. Favorisent-elles la médiation entre les mondes distincts le nôtre et celui des personnes souffrant de déficiences ? En amadonnant le regard, les œuvres d'art, quels que soient les supports utilisés, images fixes ou animées, images mentales, donnent corps et vie à l'atteinte physique et morale et ses conséquences individuelles et sociales. Elles condensent des fantasmes collectifs de voir les personnes handicapées et constituent une manière d'officialiser les différences sans les nier mais sans les exclure. Analyser, c'est dire, décrire et comprendre ces œuvres de culture provenant des siècles passés mais aussi d'aujourd'hui, telle est l'ambition de cet ouvrage qui témoigne des permanences et des évolutions de la place que la société réserve à la différence et à l'altérité.

Le syndrome dys-exécutif chez l'enfant et l'adolescent Alain Moret, Michèle Mazeau, 2019-06-18 Parmi les troubles dys ou troubles cognitifs spécifiques neuro-développementaux, ceux affectant les fonctions exécutives sont encore trop méconnus. Touchant des fonctions dites transversales, ils n'ont pas de repères circonscrits, ce qui rend leur repérage difficile. Favoriser l'établissement d'un diagnostic précis et rigoureux et ainsi permettre aux sujets qui en souffrent de bénéficier de stratégies thérapeutiques et pédagogiques susceptibles de les améliorer, tel est le double objectif de ce livre. Cette 2^e édition propose des mises à jour et enrichissements importants : nouveaux exemples présentant des situations et techniques particulièrement rencontrées, l'exploration de pathologies génétiques, traitements pharmacologiques complémentaires. Composée de deux parties, cet ouvrage articule médical et pédagogique. Il présente des approches différentes mais qui s'imbriquent pour atteindre le même but : aider tous ceux qui seront amenés à côtoyer et accompagner les jeunes souffrant de troubles dys-exécutifs. La première partie fait un point synthétique sur les aspects médicaux du syndrome dys attentionnel TDAH et dys-exécutif. Après une description du développement normal de ces fonctions chez l'enfant, sont abordés leurs aspects pathologiques, symptômes et repères dans les apprentissages, puis les stratégies et évaluations qui conduisent au diagnostic. Enfin, sont indiqués les grandes lignes des prises en charge thérapeutiques médicamenteuses et éducatives. La seconde partie est consacrée au jeune dys-exécutif en milieu scolaire : école primaire, collège et lycée. C'est dans ce cadre que s'expriment essentiellement ses difficultés, à travers un grand nombre d'exemples de devoirs choisis dans l'ensemble des disciplines scolaires : sciences, littérature, histoire, géographie. Les auteurs dessinent une méthodologie générale de l'adaptation et jettent les bases d'une réflexion sur les principes qui aideront la laboration de stratégies compensatrices pertinentes, indispensables pour ces jeunes.

The photographic collections are the fruit of an important collaboration between the IAC FRAC Rhône Alpes and the Museum of Modern Art of Saint Etienne. In 1985 the FRAC Rhône Alpes originally commissioned art and photographic historian Jean François Chevrier to build up a collection of works representing the history of photography. This led to the incorporation of works by the first generations of photographers, a thrilling and unexpected prospect for a regional body such as the FRAC. This collection was deposited to the Museum of Modern Art, thus nurturing the common interests of both parties and giving rise to two parallel complementary collections as historical cross sections spanning the main issues of photography. The natural outcome of such a longstanding collaboration was a large scale twofold exhibition with the aim of bringing this rich cultural heritage to the public eye. This book, complete with CD Rom of the collections inventory, is therefore both a reminder of the exhibitions and a catalogue of the collections.
