January Intake 2016 Egerton University:

Thus Until Emilia Ilieva, Reuben Matheka, 2025-08-04 Thus Until A History of Egerton University is a thorough historical chronological and well researched account of Egerton University from a whites only college when it started in 1939 through to the expansion it has experienced over the years culminating in being a full university More than any other university in Kenya Egerton has a long and colourful history but like all the other universities it has suffered from the political economic and financial challenges of the time especially since the double intake of the 1990s Chapter One provides the required background to the study highlighting agricultural and educational policies and steering away from the Happy Valley hype so characteristic of the period The reader will learn about the Egerton family in Chapter Two and particularly about Lord Egerton himself and the colonial circumstances within which he lived The chapter dispels some of the popularly held myths about him Chapter Three deals with the beginnings of the college and the various structural and curriculum experiments tried out and the kind of enrolment and students it experimented with as an all white establishment The chapter ends with Africans beginning to agitate for change With great attention to detail the later chapters put the university in a broader local and international context thereby increasing its relevance to society A History of Egerton University though heavily footnoted and with a detailed bibliography is written in a simple easy flowing and accessible style The Grants Register 2016 Palgrave Macmillan Ltd, 2016-12-27 The most comprehensive guide on postgraduate grants and professional funding globally For thirty four years it has been the leading source for up to date information on the availability of and eligibility for postgraduate and professional awards Each entry is verified by its awarding body and all information is updated annually

University Initiatives in Climate Change Mitigation and Adaptation Walter Leal Filho, Rafael Leal-Arcas, 2018-06-18 This book focuses on the role of higher education institutions in addressing climate change mitigation and adaptation challenges contributing to the development of this fast growing field Further it includes the results of empirical research and offers ideas regarding on going and future research initiatives The contributions also showcase the research and projects on issues pertaining to climate change at universities from across the globe document and promote ideas and experiences acquired in the execution of research projects especially successful initiatives and best practices and introduce methodological approaches and projects that offer a better understanding of climate change across society and economic sectors The book is structured around two parts lessons learned from climate change research education studies and projects Each part focuses on mitigation and adaptation respectively with many responses of the two modalities overlapping This book is a valuable resource for researchers and practitioners in the fields of environment human geography business and economics as well as academics and students as it presents education communication and awareness raising projects on matters related to climate change at universities in both industrialised and developing countries often in cooperation with government bodies NGOs and other stakeholders

Recalibrating teacher training in African higher education institutions

Sibanda, Gideon (Deon) P. van Tonder, Washington T. Dudu, 2023-03-01 This book critically examines the role of governments in promoting parity during and in post pandemic education This comes from the realisation that the pandemic has deepened the crisis by depleting the meagre resources that African countries might have devoted to normative educational practices where those on the margins would have been pushed further behind while the privileged would have been further initiated into the cultural and capital flows of private schools and historically research intensive institutions of higher learning This has far reaching implications for the education of underprivileged citizens and education particularly modes and modalities of delivery has to be reimagined to subvert the challenges wrought by the pandemic This book significantly bridges the gap between the pre and post COVID 19 pandemic pedagogical practices and the erstwhile modalities that have been resilient over time The book focuses on ways to stave off pedagogical challenges that face countries as the global pandemic makes its mark Quarterly Index to Africana Periodical Literature ,2000 Quarterly Index to Periodical Literature, Eastern and Southern Africa Library of Congress.
