The History of Oxford University Press: Volume IV Keith Robbins, 2017-05-26 The story of Oxford University Press spans five centuries of printing and publishing Beginning with the first presses set up in Oxford in the fifteenth century and the later establishment of a university printing house it leads through the publication of bibles scholarly works and the Oxford English Dictionary to a twentieth century expansion that created the largest university press in the world playing a part in research education and language learning in more than 50 countries With access to extensive archives the four volume History of OUP traces the impact of long term changes in printing technology and the business of publishing It also considers the effects of wider trends in education reading and scholarship in international trade and the spreading influence of the English language and in cultural and social history both in Oxford and through its presence around the world In the decades after 1970 Oxford University Press met new challenges but also a period of unprecedented growth In this concluding volume Keith Robbins and 21 expert contributors assess OUP's changing structure its academic mission and its business operations through years of economic turbulence and continuous technological change The Press repositioned itself after 1970 it brought its London Business to Oxford closed its Printing House and rapidly developed new publishing for English language teaching in regions far beyond its traditional markets Yet in an increasingly competitive worldwide industry OUP remained the department of a major British university sharing its commitment to excellence in scholarship and education The resulting opportunities and sometimes tensions are traced here through detailed consideration of OUP's business decisions the vast range of its publications and the dynamic role of its overseas offices Concluding in 2004 with new forms of digital publishing The History of OUP sheds new light on the cultural educational and business life of the English speaking world in the late twentieth century

Astrodynamics 2011 Astrodynamics Specialist Conference, 2012 Respect for Teachers Brian Ford, 2012-12-27 For over 30 years we have been in the midst of a paradox Following a questionable logic that sees education as a means to economic ends efforts to reform education have focused on keeping the US from slipping in international economic competition Relying on testing as a standard in the end we may have decreased our human potential and become less competitive Our system has gotten worse at its core in its philosophical tenets and in its ultimate effects by placing unwonted pressure on our youth and in stifling their creativity While this goes back decades Respect for Teachers takes its title from a phrase perhaps a codeword in President's 2011 State of the Union address and sits down to consider its implications Connecting attacks on teachers unions and schools and the misrepresentation of research to the promotion of new economic models in education it suggests that the Obama administration may be without quite realizing it setting the stage for rapid privatization of the public system As this endangers the egalitarian basis of democracy it also reminds us that schooling is big business many trillions of dollars world wide Joseph Schumpeter once said No bourgeoisie ever disliked war profits Respect operates under the premise that no bourgeoisie ever disliked the spoils of school reform either Training
