Energy Security and Sustainable Economic Growth in China S. Yao, 2014-07-29 This book focuses on various issues of energy efficiency and environmental policy in China. It discusses different aspects on how China may maintain its fast economic growth through good management of energy consumption and development of various energy sources. *The Arab Spring Five Years Later* Hafez Ghanem, 2015-12-29 Volume 1 of *The Arab Spring Five Years Later* is based on extensive research conducted by scholars from a variety of backgrounds including many associated with the Japan International Cooperation Agency (JICA). The original research papers are gathered in volume 2 and are available for readers who wish to go even further in understanding the economic background of the Arab Spring. Papers examine women's issues and agricultural practices in Morocco, urban transportation, small enterprises, governance and inclusive planning in Egypt, reconstruction in Iraq, youth employment in Tunisia, education in Yemen, and more. In addition to Hafez Ghanem, contributors include Mongi Boughzala, University of Tunis El Manar, Tunisia; Mohamed Tlili Hamdi, University of Sfax, Tunisia; Yuriko Kameyama, JICA; Hideki Matsunaga, JICA; Mayada Magdy, JICA; Yuko Morikawa, JICA; Akira Murata, JICA; Kei Sakamoto, JICA; Seiki Tanaka, JICA; Masanori Yoshikawa, JICA; and Takako Yuki, JICA. **Thinking and Acting Systemically** Alan Daly, Kara Finnigan, 2016-05-19 This volume argues that districts are important as a lever for change given the limited success of school-by-school efforts. Policies that focus on skill development, recognize and support performance, create opportunities for collaboration, build leader capacity, and create networks of knowledge sharing hold great potential for improving districts, but it will require a paradigm shift in the way we view our public school system and those who work within it, away from blame and toward complex systems change. *Mayor Michael Bloomberg* Lynne A. Weikart, 2021-09-15 In *Mayor Michael Bloomberg*, Lynne A. Weikart dives into the mayoralty of Michael Bloomberg, offering an incisive analysis of Bloomberg's policies during his 2002-2014 tenure as mayor of New York and highlighting his impact on New York City politics. Michael Bloomberg became mayor of New York just four months after the 9/11 terrorist destruction of the World Trade Center, and he led the rebuilding of a physically and emotionally devastated city so well that within two years the city had budget surpluses. Weikart reveals how state and federal governments constrained Bloomberg's efforts to set municipal policy and implement his strategic goals in the areas of homelessness, low-income housing, poverty, education, and crime. External powers of state and federal governments are strong currents, and Bloomberg's navigation of these currents often determined the outcome of his efforts. Weikart evaluates Michael Bloomberg's mayoral successes and failures in the face of various challenges: externally, the constraints of state government and mandates imposed by federal and state courts; and internally, the impasse between labor unions and Bloomberg. Weikart identifies and explores both the self-created restrictions of Mayor Bloomberg's own management style and the courage of Mike Bloomberg's leadership. **Disorder and the Disinformation Society** Jonathan Paul Marshall, James Goodman, Didar Zowghi, Francesca da Rimini, 2015-04-17 This book is the first general social

analysis that seriously considers the daily experience of information disruption and software failure within contemporary Western society Through an investigation of informationalism defined as a contemporary form of capitalism it describes the social processes producing informational disorder While most social theory sees disorder as secondary pathological or uninteresting this book takes disordering processes as central to social life The book engages with theories of information society which privilege information order offering a strong counterpoint centred on disinformation Disorder and the Disinformation Society offers a practical agenda arguing that difficulties in producing software are both inherent to the process of developing software and in the social dynamics of informationalism It outlines the dynamics of software failure as they impinge on of information workers and on daily life explores why computerized finance has become inherently self disruptive asks how digital enclosure and intellectual property create conflicts over cultural creativity and disrupt informational accuracy and scholarship and reveals how social media can extend but also distort the development of social movements

readers interested in the changing culture of research practices in the humanities and in the future of the digital humanities on the whole Books in Series ,1985 Vols for 1980 issued in three parts Series Authors and Titles *Alexander I* Marie-Pierre Rey,2012 Alexander I was a ruler with high aspirations for the people of Russia Cosseted as a young grand duke by Catherine the Great he ascended to the throne in 1801 after the brutal assassination of his father In this magisterial biography Marie Pierre Rey illuminates the complex forces that shaped Alexander s tumultuous reign and sheds brilliant new light on the handsome ruler known to his people as the Sphinx Despite an early and ambitious commitment to sweeping political reforms Alexander saw his liberal aspirations overwhelmed by civil unrest in his own country and by costly confrontations with Napoleon which culminated in the French invasion of Russia and the burning of Moscow in 1812 Eventually Alexander turned back Napoleon s forces and entered Paris a victor two years later but by then he had already grown weary of military glory As the years passed the tsar who defeated Napoleon would become increasingly preoccupied with his own spiritual salvation an obsession that led him to pursue a rapprochement between the Orthodox and Roman churches When in exile Napoleon once remarked of his Russian rival He could go far If I die here he will be my true heir in Europe It was not to be Napoleon died on Saint Helena and Alexander succumbed to typhus four years later at the age of forty eight But in this richly nuanced portrait Rey breathes new life into the tsar who stood at the center of the political chessboard of early nineteenth century Europe a key figure at the heart of diplomacy war and international intrigue during that region s most tumultuous years
