Lelitha Application 2016:

Optimization, Variational Analysis and Applications Vivek Laha, Pierre Maréchal, S. K. Mishra, 2021-07-27 This book includes selected papers presented at the Indo French Seminar on Optimization Variational Analysis and Applications IFSOVAA 2020 held at the Department of Mathematics Institute of Science Banaras Hindu University Varanasi India from 2 4 February 2020 The book discusses current optimization problems and their solutions by using the powerful tool of variational analysis Topics covered in this volume include set optimization multiobjective optimization mathematical programs with complementary equilibrium vanishing and switching constraints copositive optimization interval valued optimization sequential quadratic programming bound constrained optimization variational inequalities and more Several applications in different branches of applied mathematics engineering economics finance and medical sciences have been included Each chapter not only provides a detailed survey of the topic but also builds systematic theories and suitable algorithms to deduce the most recent findings in literature This volume appeals to graduate students as well as researchers and practitioners in pure and applied mathematics and related fields that make use of variational analysis in solving optimization problems

Soft Computing for Security Applications G. Ranganathan, Xavier Fernando, Selwyn Piramuthu, 2022-09-29 This book features selected papers from the International Conference on Soft Computing for Security Applications ICSCS 2022 held at Dhirajlal Gandhi College of Technology Tamil Nadu India during April 21 22 2022 It covers recent advances in the field of soft computing techniques such as fuzzy logic neural network support vector machines evolutionary computation machine learning and probabilistic reasoning to solve various real time challenges This book presents innovative work by leading academics researchers and experts from industry

Applications of Artificial Intelligence and Machine Learning Bhuvan Unhelker, Hari Mohan Pandey, Gaurav Raj, 2022-09-13 The book presents a collection of peer reviewed articles from the International Conference on Advances and Applications of Artificial Intelligence and Machine Learning ICAAAIML 2021 The book covers research in the areas of artificial intelligence machine learning and deep learning applications in health care agriculture business and security This book contains research papers from academicians researchers as well as students There are also papers on core concepts of computer networks intelligent system design and deployment real time systems wireless sensor networks sensors and sensor nodes software engineering and image processing This book is a valuable resource for students academics and practitioners in the industry working on AI applications

Augmented Intelligence Toward Smart Vehicular Applications Nishu Gupta, Joel Rodrigues, Justin Dauwels, 2020-12-18 This up to date reference discusses important concepts of vehicular communication in intelligent transportation systems Augmented Intelligence Toward Smart Vehicular Applications begins by discussing key objectives of intelligent transport systems and vehicular ad hoc networks VANETs It then goes on to discuss challenges applications and future trends in VANETs The text focuses on the organization of artificial intelligence AI and aspects of deep learning algorithms particularly multimodal transport This book

will serve as an ideal reference for graduate students and academic researchers in the field of electrical engineering electronics and communication engineering and transportation engineering Features In depth coverage of Internet of Things IoT in vehicular applications Discussion on nn vehicle sensor networks Implementation of mobile IP and migration of IPv6 Focus on the need of AI in smart vehicular applications Discussions on advanced concepts in the field of intelligent transport systems Intelligent Data Engineering and Analytics Suresh Chandra Satapathy,Peter Peer,Jinshan Tang,Vikrant Bhateja,Anumoy Ghosh,2022-02-28 This book presents the proceedings of the 9th International Conference on Frontiers of Intelligent Computing Theory and Applications FICTA 2021 held at NIT Mizoram Aizwal Mizoram India during June 25 26 2021 FICTA conference aims to bring together researchers scientists engineers and practitioners to exchange their new ideas and experiences in the domain of intelligent computing theories with prospective applications to various engineering disciplines This volume covers broad areas of Intelligent Data Engineering and Analytics The conference papers included herein presents both theoretical as well as practical aspects of data intensive computing data mining big data knowledge management intelligent data acquisition and processing from sensors data communication networks protocols and architectures etc The volume will also serve as a knowledge centre for students of post graduate level in various engineering disciplines *Recent Advances in Applied Sciences* Ritesh Bhat,Nithesh Naik,Ketan Kotecha,Antony V. Samrot,Sachi Nandan Mohanty,Bhaskar Somani,2025-06-07 This book commences with an editorial overview providing a comprehensive introduction to the current landscape and future prospects in engineering and technology Volume 1 of the International Conference on Innovative Discoveries and Emerging Advancements in Applied Sciences iDEAAS 2024 proceedings is a groundbreaking compilation that encapsulates the forefront of engineering and technological innovations This meticulously curated book serves as a cornerstone for professionals academics and students who are navigating the ever evolving realms of engineering and technology This sets the tone for a deep dive into a series of specialized topics In the aerospace and marine technologies section the book presents pioneering research and studies It offers insights into the latest advancements in aerospace engineering delving into the complexities and innovations in aircraft and spacecraft design Simultaneously it explores the strides made in marine technologies highlighting the synergies and technological crossovers between these two critical fields The infrastructure and environment section addresses one of the most pressing concerns of the 21st century sustainable development This section is particularly insightful for its focus on the environmental impact of infrastructure development and the challenges of maintaining ecological balance Mechatronics and automation is another highlight of this volume where the fusion of mechanical engineering electronics and computing leads to fascinating innovations in automation and system design This section underscores the importance of interdisciplinary approaches in solving complex engineering problems and enhancing operational efficiency in various industries In the realm of computing and information technology the book explores the transformative impact of digital technologies on engineering The book culminates with a

comprehensive summary that not only synthesizes the key themes discussed but also looks ahead at the future of engineering and technology. It offers a visionary perspective on the emerging trends and potential advancements that are poised to redefine the engineering landscape. *Advances in Smart Grid Technology* Pierluigi Siano, K. Jamuna, 2020-09-22. This book comprises the select proceedings of the International Conference on Power Engineering Computing and Control PECCON 2019. This volume focuses on the different renewable energy sources which are integrated in a smart grid and their operation both in the grid connected mode and islanded mode. The contents highlight the role of power converters in the smart grid environment, battery management, electric vehicular technology, and electric charging station as a load for the power network.
