A New Perspective on Human Mobility in the South Rudolf Anich,Jonathan Crush,Susanne Melde,John O.

Oucho,2014-07-22 This book offers innovative insights on South South human mobility It features a collection of papers that highlight often overlooked mobility patterns among and within regions in the global South as well as address critical realities faced by South South migrants This publication thoroughly investigates key issues of the migration debate spanning from the terminological and contextual meaning of migration and development It also critically examines some of the key features that human mobility in the global South is characterized by including the prevalence of intra regional and labor mobility the role of diasporas communities in developing countries South South remittances patterns the influence of environmental factors on the decision to migrate and the rising number of child migrants By carefully moving the lens from the frequently examined South North and North North movements to human mobility within the Southern regions of the world this book questions the traditional conception of the migration paradigm It offers knowledge and insights that will help to expand the debate as well as stimulate further research on this important topic and hopefully promote future activities aimed at the protection of migrants and their families living in the South As a result it is an ideal resource for migration scholars policy makers and development practitioners The Challenge of the Threshold Jocelyne Streiff-Fenart,Aurelia Wa Kabwe-Segatti,2012-01-01

The recent containment policies aimed at regulating immigration flows towards Europe have profoundly altered the dynamics of migration in Africa The impact of these policies is apparent in the redefinitions of the routes itineraries and actors of migration But their effect can also be felt in migrant categories and identities and in the perceptions of migrants in the societies through which they transit or the communities which they have left behind By placing the problem of border control at the very heart of the migration issue the policies aimed at the restriction of migration flows have changed the meaning and significance of migration More than ever before both migrants and institutions in charge of border control construe migration mostly around the challenge of border crossing In the Global South the transit situation in which would be border jumpers are retained blurs the distinction between temporary migration and settlement This contributes to change in various ways the relationship to strangers from renewed forms of solidarities to the reactivation of latent xenophobic sentiment whether around the Mediterranean or en route towards South Africa the other migration hub on the continent The editors of this volume have decided to work on the notion of threshold as an operative concept for addressing the multiple dimensions

of the issue the discursive and conceptual frameworks that constitute the backbone of threshold policies aiming to keep undesirables beyond borders the constitution of stopping places intermediate areas and relay towns which all represent threshold spaces that challenge local urban equilibria and the experience of liminality in which individuals caught for a time between two states as migrant on the road and as immigrant the state to which they aspire experience the typically ambiguous situations characteristic of threshold people Turner While ambitioning to innovate theoretically and methodologically the volume is above all *Migrations africaines : le codéveloppement en questions* Cris Beauchemin, Lama Kabbanji, Papa Sakho, Bruno Schoumaker, 2013-10-23 Depuis le milieu des années 2000 les débats sur l'immigration en Europe se sont très largement focalisés sur les migrations africaines Pour autant les migrations d'Afrique subsaharienne demeurent largement méconnues et l'engouement dont elles font l'objet est sans mesure avec leur poids statistique En complément du contrôle des frontières le codéveloppement est apparu comme un nouveau dispositif politique associant gestion des migrations et promotion du développement L'ouvrage confronte les attentes des politiques du codéveloppement avec les résultats d'enquêtes observant ainsi les liens entre migrations et développement en Afrique subsaharienne l'examen des politiques fondé sur l'étude des textes officiels européens et africains et sur des entretiens avec des praticiens répond l'analyse des comportements des populations travers l'exploitation d'entretiens menés avec des migrants et surtout l'analyse statistique de données originales collectées dans le cadre du projet Migration entre l'Afrique et l'Europe MAFE Cet ouvrage se présente comme un essai de démographie politique Sa démarche consiste questionner par l'étude des populations les hypothèses qui sous-tendent les politiques en matière de migration et développement *Migration internationale africaine* Rachid Chaabita, 2017-01-01 Aujourd'hui les caractéristiques des migrations sont surtout spontanées et les situations socio-économiques en sont les principales responsables En Afrique particulièrement l'exode rural le chômage des diplômés l'instabilité politique et l'absence de la sécurité représentent les principales raisons de vouloir migrer Mais paradoxalement l'Afrique montre aujourd'hui ses richesses naturelles humaines et devient une force économique un espace d'accueil de capitaux et d'investissements Le continent se lance aujourd'hui vers un avenir prometteur et un futur riche en termes de mouvements humains et économiques

Migrations en blanc, 2014-09-01 La Roumanie et la Bulgarie se sont inscrites dans le nouveau contexte d'élargissement de l'UE avec une intensification de la migration des professionnels de santé L'ampleur prise par la migration des médecins roumains et bulgares est liée à l'effondrement économique et la dégradation de la qualité de vie dans ces deux pays Cette situation a des effets négatifs sur les systèmes de santé et sur l'accès aux soins pour la population **Politiques migratoires européennes et voisinage maghrébin** Abdennour Benantar, 2025-07-31 Comment les politiques migratoires européennes se déploient-elles et se traduisent-elles en termes de dispositifs mis en œuvre divers niveaux de la coopération avec les pays maghrébins C'est cette question essentielle que le présent ouvrage tente de répondre en proposant une perspective analytique et critique de ces politiques et des dynamiques d'externalisation de la gestion migratoire et frontalière qui en découlent

Adoptant l'approche de la securitisation il examine la manière dont le processus de securitisation de la migration se transpose d'un palier régional à un autre de l'Europe au Maghreb et même au-delà et se trouve approprié et prioritaire par les acteurs maghrbins impliqués d'ordinaire dans une sous-traitance au profit de l'Europe. Dans ce contexte de régulation et d'entrave la mobilité de la migration considérée sur les deux rives comme un enjeu de securité est devenue une matrice régionale. Récits de migration en quête de nouveaux regards Jean-Igor Ghidina, Nicolas Violle, 2014. Cet ouvrage constitue l'aboutissement d'une recherche collective sur les récits de migration qui se déclinent en une profusion de modalités de critique et d'expression témoignages inédits et autobiographiques univers fictionnels du roman et de la poésie articles de presse pièces théâtrales et missions télévisées. Ce volume part de la situation italienne contemporaine parce qu'elle représente un point de focalisation saillant autour des questions migratoires. Son intérêt majeur est de lui additionner les expériences issues d'autres espaces scripturaux Allemagne Espagne Afrique du Nord Amérique du Sud permettant ses différents chapitres d'offrir un regard complémentaire sur cette question. Il nous est offert un éclairage original sur ce phénomène historique ainsi qu'une méditation salutaire qui interpelle le lecteur sensible aux enjeux planétaires. L'immigration bouleverse les repères existentiels et favorise l'émergence d'une identité aux facettes multiples. Cette publication actualise notre perception des diverses façons que l'on a aujourd'hui de raconter les migrations et nous invite à porter un regard novateur qui dépasse les poncifs pour laisser clore un monde en devenir.

L'Union africaine face à la problématique migratoire Romuald Likibi, 2010. Le regard d'un Africain sur la gestion africaine des migrations internationales n'est devenu une nécessité surtout que cette étude intègre non seulement les causes des déplacements aussi bien internes qu'externes au continent africain mais aussi les conséquences directes de l'immigration africaine en Europe en général et en France en particulier. Tout au long de cette réflexion une comparaison est faite entre la praxis des États africains et européens.

Migrations climatiques Daniel Hermant, 2013-05-01. Réfugiés environnementaux climatiques migrants forcés de l'environnement du climat. Les termes pour qualifier les personnes forcées de quitter leur lieu habituel de vie en raison d'une dégradation de l'environnement ne manquent pas et reflètent la difficile construction de cet enjeu en tant que problème nécessitant l'intervention des autorités publiques. Ce numéro revient sur les différents débats qui accompagnent ces questions.
