

Memories Of A New England Autumn

JS Bruner

Memories Of A New England Autumn:

Pastoral Days or Memories of a New England Year William Hamilton Gibson, 1882 Pastoral Days; or, Memories of a New England Year W. Hamilton Gibson, 2019-12-03 In *Pastoral Days or Memories of a New England Year* W. Hamilton Gibson artfully captures the essence of rural life in New England through a series of vignettes that blend nature observation, personal reflection, and lyrical prose. This work, written in the late 19th century, reflects a burgeoning appreciation for nature that characterized the American Romanticism movement. Gibson employs a vividly descriptive literary style rich in imagery and emotion, inviting readers to embrace the seasonal beauty and poignant simplicity of country living. His intimate narratives not only evoke nostalgia for a pastoral existence but also serve as a meditative commentary on the relationship between humanity and the natural world. W. Hamilton Gibson, a painter, naturalist, and writer, was profoundly influenced by his surroundings and the American Transcendentalist ethos. Raised in a family that valued the arts and environment, Gibson's multifaceted pursuits, from illustrating botanical specimens to advocating for conservation, shaped his perspective on the fleeting beauty of nature. His experiences in New England's diverse landscapes informed his writings, imbuing them with authenticity that resonates with the reader. *Pastoral Days* is a compelling invitation for readers seeking solace in nature's embrace and those longing for a deeper connection with the rural tradition of America. Gibson's work is a celebration of life's ephemeral moments, making it a perfect companion for anyone yearning to rediscover the quiet joys that lie in the heart of the landscape.

New England's Crises and Cultural Memory John McWilliams, 2004-07-22 In this magisterial study, John McWilliams traces the development of New England's influential cultural identity. Through written responses to historical crises from early New England through the pre-Civil War period, McWilliams argues that the meaning of New England, despite claims for its consistency, was continuously reformulated. The significance of past crises was forever being reinterpreted for the purpose of meeting succeeding crises. The crises he examines include starvation, the Indian wars, the Salem witch trials, the revolution of 1775-76, and slavery. Integrating history, literature, politics, and religion, this is one of the most comprehensive studies of the meaning of New England to appear in print. McWilliams considers a range of writing, including George Bancroft's *History of the United States*, the political essays of Samuel Adams, the fiction of Nathaniel Hawthorne, and the poetry of Robert Lowell. This compelling book is essential reading for historians and literary critics of New England.

A New England Girlhood, Outlined from Memory Lucy Larcom, 1889 Memories of a New England Autumn Nigel, 2014-11-22 Leaves turning to a riot of reds, yellows, and oranges, the lingering scent of cinnamon, the farmer arrested for indecency. Nothing says autumn like New England.

Fall River Line Journal Fall River Line, 1917 *Blood Memory* Dayton Duncan, Ken Burns, 2023-10-10 The epic story of the buffalo in America from prehistoric times to today, a moving and beautifully illustrated work of natural history inspired by the PBS series *American Buffalo*. The American buffalo, our nation's official mammal, is an improbable shaggy beast that has found itself at the center of many of our most mythic and

sometimes heartbreaking tales The largest land animals in the Western Hemisphere they are survivors of a mass extinction that erased ancient species that were even larger For nearly 10 000 years they evolved alongside Native people who weaved them into every aspect of daily life relied on them for food clothing and shelter and revered them as equals Newcomers to the continent found the buffalo fascinating at first but in time they came to consider them a hindrance to a young nation s expansion And in the space of only a decade they were slaughtered by the millions for their hides with their carcasses left to rot on the prairies Then teetering on the brink of disappearing from the face of the earth they would be rescued by a motley collection of Americans each of them driven by different and sometimes competing impulses This is the rich and complicated story of a young republic s heedless rush to conquer a continent but also of the dawn of the conservation era a story of America at its very best and worst

Memory's Nation John Seelye,2000-11-09 Long celebrated as a symbol of the country s origins Plymouth Rock no longer receives much national attention In fact historians now generally agree that the Pilgrims storied landing on the Rock never actually took place the tradition having emerged more than a century after the arrival of the Mayflower In *Memory's Nation* however John Seelye is not interested in the factual truth of the landing He argues that what truly gives Plymouth Rock its significance is more than two centuries of oratorical literary and artistic celebrations of the Pilgrims arrival Seelye traces how different political religious and social groups used the image of the Rock on behalf of their own specific causes and ideologies Drawing on a wealth of speeches paintings and popular illustrations he shows how Plymouth Rock changed in meaning over the years beginning as a symbol of freedom evoked in patriotic sermons at the start of the Revolution and eventually becoming an icon of exclusion during the 1920s Originally published in 1998 A UNC Press Enduring Edition UNC Press Enduring Editions use the latest in digital technology to make available again books from our distinguished backlist that were previously out of print These editions are published unaltered from the original and are presented in affordable paperback formats bringing readers both historical and cultural value
