Pop Music - Technology and Creativity Timothy Warner,2017-10-03 This highly original and accessible book draws on the

author's personal experience as a musician producer and teacher of popular music to discuss the ways in which audio technology and musical creativity in pop music are inextricably bound together This relationship the book argues is exemplified by the work of Trevor Horn who is widely acknowledged as the most important innovative and successful British pop record producer of the early 1980s In the first part of the book Timothy Warner presents a definition of pop as distinct from rock music and goes on to consider the ways technological developments such as the transition from analogue to digital transform working practices and as a result impact on the creative process of producing pop Part two analyses seven influential recordings produced by Trevor Horn between 1979 and 1985 Video Killed the Radio Star The Buggles Buffalo Gals Malcolm McLaren Owner of a Lonely Heart Yes Relax Frankie Goes to Hollywood Slave to the Rhythm Grace Jones and albums by The Art of Noise and Propaganda These records reveal how the creative use of technology in the modern pop recording studio has informed Horn's work a theme that is then explored in an extensive interview with Horn himself
