Reflections: Discovering Life in the Universe

Descriptions: This questionnaire is designed as a guide checklist of whether a student has actually mastered the performance-ideas for this chapter. It should be noted if they have. Keep in mind that these items refer to a *total* questionnaire to selected topics from the chapters, intended to give a broad view of what will need to come through study.

11. The gas particles inside a lower balloon, causing it to expand, will be contained at a less higher rate.

Using that model of the balloon should not depend on size, the gas particles should still move faster. Thus, think about what would happen if the gas in the balloon were hot enough for the particles to move, remembering that faster gas motion means higher temperature and that the balloon will be very sensitive to temperature.
