volume variously draw attention to three of Coetzee's most recent and significant experiments in controlled exposure The
first is the exposure of place Coetzee's decision to set his novels in his newly adopted country of Australia The second is the
exposure of form Coetzee's direct almost essayistic address of literary philosophical topics within his novels And the third is
the exposure of limits Coetzee's explicit deconstruction of the traditional limits of human life *Michigan School Moderator*
