Cahn, 1997 Brings together classic writings on education by leading figures in the history of philosophy along with notable contributions to the field by a variety of contemporary thinkers **Ontology, Causality, and Mind** John Bacon, Keith Campbell, Lloyd Reinhardt, 1993-03-26 This collection of essays all especially written for this volume explore the many facets of Armstrong's work concentrating on his interests *First Philosophy: Knowing and Being - Second Edition* Andrew Bailey, 2013-06-17 *First Philosophy Knowing and Being* brings together over thirty classic and contemporary readings in epistemology and metaphysics Mindful of the intrinsic difficulty of the material the editors provide comprehensive introductions both to each topic and to each individual selection By presenting a detailed discussion of the historical and intellectual background to each piece the editors enable readers to approach the material without unnecessary barriers to understanding A brief introduction to arguments is included as are appendices on terminology and philosophical puzzles and paradoxes Critical Peace Education Peter Pericles Trifonas, Bryan Wright, 2012-10-08 Forward thinking pedagogues as well as peace researchers have in recent decades cast a critical eye over teaching content and methodology with the aim of promulgating notions of peace and sustainability in education This volume gives voice to the reflections of educational theorists and practitioners who have taken on the task of articulating a curriculum of difference that gives positive voice to these key concepts in the pedagogical arena Here contributors from around the world engage with paradigm shifting discourses that reexamine questions of ontology and human subjectivity discourses that advocate interdisciplinarity as well as the reformulation of epistemological boundaries Deconstructing the origins and limits of human knowledge and learning the book affords educators the opportunity to identify and express common elements of the subjects taught and studied in

educational institutions elements that facilitate students apprehension of peace and sustainability With penetrating analysis of contemporary issues in the field this volume introduces a range of fresh theoretical approaches that extend the boundaries of peace education which is broadly defined as promoting the responsible equitable and sustainable co existence of differing human communities In doing so the chapters show how we can improve our lives as well as our chances of survival as a species by acknowledging the importance of shared human aspirations that cut across borders of genuinely listening to alternative voices and opinions of challenging the ubiquitous socially constructed historical narratives that define human relations only in terms of power Charged with vitality and originality this new publication is a critical examination of issues central to the development and utility of global education

Commonsense Darwinism John Lemos,2015-11-09 Written in a simple accessible style Commonsense Darwinism offers a clear critical examination of the subject Assuming that the diversity of life including human beings is the result of evolution from common origins and that its driving force is natural selection the book explores what this might mean for issues in ethics philosophy of religion epistemology and metaphysics The author s defense of free will makes this an especially stimulating read

Freedom, Teleology, and Evil Stewart Goetz,2011-10-27 In Freedom Teleology and Evil Stewart Goetz defends the existence of libertarian freedom of the will He argues that choices are essentially uncaused events with teleological explanations in the form of reasons or purposes Because choices are uncaused events with teleological explanations whenever agents choose they are free to choose otherwise Given this freedom to choose otherwise agents are morally responsible for how they choose Thus Goetz advocates and defends the principle of alternative possibilities which states that agents are morally responsible for a choice only if they are free to choose otherwise Finally given that agents have libertarian freedom Goetz contends that this freedom is integral to the construction of a theodicy which explains why God allows evil

Chisholm,1997 This text mixes Chisholm as a disseminator of others ideas with his own theories of knowledge and perception his defence of Cartesian dualism foundationalism his adverbial theory of sensory experience and his immanent agent causation as a solution to the problem of personal freedom
