Modern Science Fiction Helen Nethercutt Parker, 1984 **SF in Dimension** Alexei Panshin, Cory Panshin, 1980 This collection of essays displays the talent and insight that make the Panshins the obvious and worthy successors to Damon Knight and James Blish in the field of science fiction and fantasy criticism The Panshins document the evolution of a new and fruitful paradigm and offer a challenge to all conventional opinion about science fiction They demonstrate that the conception of science fiction as fiction about science was fatally compromised from the outset They trace the continuity of science fiction with man's most ancient and meaningful stories the great fantasy of the past and find this continuity in symbols of transcendent mystery Nearly half of this book is devoted to studying the works of Robert Heinlein extending and reconsidering the analysis begun in Heinlein in *Dimension* and concluding with a long discussion of *The Number of the Beast* The Panshin team applies theories of human psychological development to show the deeper meanings of the stories of Heinlein and other authors They say In the mirror of a science fiction story may be seen a reflection of the author In the mirror of science fiction stories may be seen a reflection of an era And in our reading of science fiction the stories we choose and what we make of them may be seen a reflection of ourselves We read science fiction to know ourselves better
