Project Report in the subject Pedagogy The Teacher Educational Leadership language English abstract This work attempts to prove that the Strategic Intervention Material SIM can significantly address the least mastered skills and learning

competencies from the K 12 curriculum guide Different and multiple activities were created in order to improve and help the pupil understand difficult concepts about the subject Assessments were made and subjected to parallel testing The activities

were finalized and administered in an Elementary School with 23 Grade IV pupils as respondents The mean mastery and

performance level on the actual lesson and the utilization of SIM were computed Moreover results were compared The

mastery and performance level before and after the use of the Strategic Intervention Material were interpreted It showed that there was a significant difference on the mastery and performance levels of pupils This suggests that the utilization of

SIM helps the pupils to master the difficult and least mastered competencies **Education Manitoba** ,1989 [Guide to](#)
