Le Canada Donald J. Savoie, 2023-05-15 La structure politique du Canada va l'encontre de la géographie économique de l'Amérique du Nord et de l'attraction économique entre le nord et le sud Le Canada a importé des institutions politico-administratives conçues pour un État unitaire et depuis la fondation du pays ses leaders politiques se sont débattus pour qu'elles fonctionnent Pour cette raison plusieurs Canadiens et leurs communautés et leurs régions se perpétuent comme des victimes et ce à un degré plus élevé que chez d'autres groupes dans des démocraties occidentales Notre gouvernement fédéral a démontré un plus grand empressement à excuser pour des injustices que les autres pays occidentaux Le Canada est également plus performant que d'autres nations dans l'aide qu'il apporte aux victimes pour qu'elles fassent la transition les menant à participer pleinement à la vie politique et économique du pays Donald Savoie soutient que le Canada continue de prospérer malgré les nombreux défauts de ses institutions politiques nationales et le penchant qu'ont les Canadiens de se voir comme des victimes et que notre histoire et ces défauts nous ont appris l'art du compromis La constitution du Canada et ses institutions politiques amplifient plus qu'elles n'atténuent la victimisation cependant elles ont également permis aux Canadiens de mieux gérer cet enjeu que dans d'autres pays Les Canadiens reconnaissent aussi que l'alternative au Canada est pire et cela plus que tout autre chose continue de renforcer l'unité nationale Puisant dans sa longue expérience dans le monde universitaire et en tant que conseiller auprès de gouvernements Savoie propose de nouvelles manières de voir comment le Canada travaille pour sa population

Validity of Educational Assessments in Chile and Latin America Jorge Manzi, María Rosa García, Sandy Taut, 2021-09-11 This edited volume presents a systematic analysis of conceptual methodological and applied aspects related to the validation of educational tests used in Latin American countries Inspired by international standards on educational measurement and evaluation this book illustrates efforts that have been made in several countries to validate different types of educational assessments including student learning assessments measurements of non cognitive aspects in students teacher evaluations and tests for certification and selection It gathers the experience of validity studies from the main international assessments in Latin America PISA TIMSS ERCE and ICCS Additionally it shows the challenges that must be taken into account when evaluations are used to compare countries groups or trends of achievement over time The book builds on the premise that measurements in the educational field should not be used if there are no studies that support the validity of the interpretation of their scores or the use made of such tests It shows that despite the recognition given to validity relatively few educational measurement assessments have accumulated enough evidence to support their interpretation and use In doing so this volume increases awareness about the relevance of
