Lorax Questions And Answer:

Wild Things Sidney I. Dobrin, Kenneth B. Kidd, 2004 Today's children are occupied with activities taking place in settings that are isolated from nature or are simulations of the earth's natural environment. Language Arts in Your Classroom Jean Pottle, Mary Rutley, 1996 Literature-based activities designed to be used with five thematic sections covering plant and animal species, habitats, threats to the environment, natural phenomena, and technology.

Project Learning Tree, 1994 **Once Upon a Crime** Wanda Cassidy, Ruth Yates, 2005-01-01 Did Goldilocks wilfully trespass and destroy the property of the three bears? What crime did the wolf commit against the three little pigs, and is the wolf obligated to repair the pigs' homes? Was Peter Pan guilty of kidnapping? In *Once Upon a Crime*, students use familiar stories to experience what it is like to investigate a crime scene, uncover important facts, weave together an argument supported with evidence and witnesses, and present their findings in a trial that simulates a court hearing. They also learn about other ways of resolving conflict such as mediation, negotiation, and restorative justice processes. Through these activities, children engage in critical thinking, hone their literacy skills, and learn about the role law plays in their lives and their rights and responsibilities as citizens. This book offers step-by-step instructions for conducting mock trials based on fairy tales and other multicultural stories. Five complete trial scripts are included for classroom use. Also included are ideas for adapting contemporary stories into civil and criminal trials and mediation and negotiation activities. *Once Upon a Crime* complements the authors' previous book *Let's Talk About Law in Elementary School*, which helps teachers integrate law-related ideas and pedagogical approaches into social studies, language arts, and science. **Ecosystem Matters** Mary Adams, 1995-10 A curriculum for young people, grades K-3 to K-12, to help them understand, relate to, and care for earth's natural resources. This guide takes an ecological approach to protection, restoration, and care use of natural resources, encourages social behavior that translates into socially, culturally, and economically stronger communities. The curriculum contains lessons, activities, role playing, other games, notes for the teacher, illustrations, an *Ecosystem Matters* Glossary.
