endearing behaviors and are often kept as pets due to their manageable size and captivating appearance. One of the most distinctive features of lovebirds is their size. They are among the smallest parrots, typically measuring between 5 to 7 inches (13 to 17 cm) in length. Their plumage is characterized by bright and bold colors with variations in shades of green, red, yellow, blue, and more, depending on the specific species and subspecies. Additionally, lovebirds are known for their striking facial markings, which often include a prominent eye ring.
