Louisiana Register ,2008 *High Stakes* Dale D. Johnson,Bonnie Johnson,2005-10-13 *High Stakes* brings the voices of students and teachers to our national debates over school accountability and educational reform Recounting the experiences of two classrooms during one academic year the book offers a critical exploration of excessive state mandated monitoring high stakes testing pressures and inequities in public school funding that impede the instructional work of teachers especially those who serve children of poorer families Redbud Elementary has no playground no library no hot water and no art classes Ninety five percent of the children qualify for a free breakfast or lunch Most of the children live with a single parent or relative some live in homes without electricity running water or floors The authors who moved from comfortable college professor positions to teach in a poor school district offer an eye opening examination of the daily school lives of children who live in crushing poverty and teachers who work under extraordinary stress Their tale is at times heartbreaking heartwarming or infuriating They explain why many recent educational reforms are off track and argue for more meaningful reforms that can empower teachers and students and better meet the challenges of our communities and the national interest This second edition updates the story of Redbud Elementary and takes a hard look at the national expansion of accountability from preschool through college A new final chapter focuses on the national effects of the No Child Left Behind Act as well as states experiences with mandates and the role of big business in the testing process This edition concludes with coverage of the so called silent professionals and opposition to high stakes testing and a consideration of the future prospects for American education **Resources in Education** ,1990 *Louisiana Libraries* ,2002 [Resources in Education](#) ,1996 **Louisiana Administrative Code** Charlotte Corneil,1984 **Kaplan Making the Grade** ,1999 Make Learning Fun and More Effective The Making the Grade books published by SCORE are excellent tools for you to help your child build the necessary skills and confidence to perform well in school and meet the tough new academic standards enacted by many states Using SCORE s motivational teaching methods the books includes a thorough review of key 7th and 8th grade subjects hundreds of skill building activities effective strategies to help improve test taking abilities tips on how you can positively affect your child s success in school a special section from the test preparation experts at Kaplan on helping your child prepare for standardized tests Most important this unique book outlines how you can foster a lifelong love of learning in your child Making the Grade Grades 7 8 lays a solid foundation for future success in school and in life **Louisiana Planter and Sugar Manufacturer** ,1902 **When the Saints Come Marching in** Bruce Sacerdote,2008 I examine academic performance and college going for public school students affected by Hurricanes Katrina and Rita Students who are forced to switch schools due to the hurricanes experience sharp declines in test scores in the first year following the hurricane However by the second and third years after the disaster Katrina evacuees displaced from Orleans Parish appear to benefit from the displacement experiencing a 15 standard deviation improvement in scores The test score gains are concentrated

among students whose initial schools were in the lowest quintile of the test score distribution and among students who leave the New Orleans MSA Katrina evacuees from suburban areas and Rita evacuees from the Lake Charles area eventually recover most of the ground lost during 05 06 but do not experience long term gains relative to their pre Katrina test scores High school age Orleans evacuees have higher college enrollment rates than their predecessors from the same high schools Meanwhile Katrina evacuees from the suburbs experience a 3 5 percentage point drop in their rate of enrollment in four year colleges Those evacuees do not to make up for the decline in the subsequent two years Later cohorts of suburban New Orleans evacuees are unaffected The results suggest that for students in the lowest performing schools the long term gains to achievement from switching schools can more than offset even substantial costs of disruption
