Lovestorm Judith E. French, 2014-02-20 Lady Elizabeth Sommersett is the pampered beautiful daughter of a powerful earl. But when she is shipwrecked on her way to an arranged marriage her future seems over until she is rescued by a magnificent warrior. Elizabeth had no idea a man could be as strong yet tender, not to mention breathtaking as Cain Dare. But even more shocking is Cain's announcement that she now belongs to him; that she is his gift from the sea. Nor is Elizabeth prepared that in place of her comfortable life she may have gained a passion she never knew possible. 135 000 Words

E.A. Dupont and His Contribution to British Film Paul Matthew St. Pierre, 2010 **The Sermons and Conferences of John Tauler, of the Order of Preachers, Surnamed "the Illuminated Doctor"** Johannes Tauler, 1910 Silent to Sound Geoff Brown, 2024-10-22 Silent cinema was never silent. But from the mid 1920s onwards the sound part of the cinema experience was transformed by the arrival of films long and short with clearly audible talk music and sound effects built in. It marked the most fundamental shift in cinema technology since cinema's birth. The first book devoted to Britain's conversion to talkies and the result of eight years' research, *Silent to Sound: British Cinema in Transition* takes a lively and comprehensive look at the production side of the British sound revolution, stretching from experimental efforts in the late 19th century through the sound shorts of the 1920s to the key year of 1929, the year of Hitchcock's *Blackmail*, Britain's first home-grown talkie feature, and the industry turmoil that followed. The narrative concludes in 1934 when John Grierson's GPO Film Unit finally acquired sound equipment, prompting a late burst of experimentation just when commercial feature soundtracks had settled down. Films familiar, neglected and unknown are examined: overripe melodramas, the lost *Black Waters*, local versions of Hollywood musicals, *Harmony*, *Heaven*, visually elaborate science fiction, *High Treason*, plus newsreels, documentaries, amateur films and the last phase of British silent production. The impact of sound on studio technique is examined along with the industry's complex relations with Britain's strong theatre traditions, with Europe and above all cinema's superpower America. It's also never forgotten that the sound transition was shaped not just by technology but by the talents, foibles and follies of individual people.
