

Getting Acquainted

Congratulations upon your selection of this CASIO watch. To get the most out of your purchase, be sure to carefully read this manual and keep it on hand for later reference when necessary.

- Expose the watch to bright light to charge its battery before using it. You can use this watch even as its battery is being charged by exposure to bright light.
- Be sure to read "Battery" of this manual for important information you need to know when exposing the watch to bright light.

If the display of the watch is blank...

- If the Power Saving on (PS) indicator flashes on the display, it means that the display is blank because the watch's Power Saving function has turned off the display to conserve power. Power Saving automatically turns off the display and puts the watch into a sleep state whenever your watch is left for a certain period when it is dark.
- The initial factory default setting is Power Saving on.
- The watch recovers from the sleep state if you swing it to a west-12 area or if you press any button, or if you angle the watch towards your face for reading.
- It can take up to five seconds for the display to turn on.
- See "Power Saving function" for more information.

General Guide

- Press (2) to change from mode to mode.
- In any mode except when a setting screen is on the display, press (3) to illuminate the display.

Timekeeping

- Use the Timekeeping Mode to set the time and date.
- Note: This watch is capable of displaying text for the day of the week in any one of 16 different languages (English, Portuguese, Spanish, French, Dutch, Danish, German, Italian, Czech, Swedish, Polish, Greek, Romanian, Turkish, Russian, and Japanese).

To set the time and date

- In the Timekeeping Mode, hold down (3) until the seconds start to flash, which indicates the setting screen.
- Use (2) to move the flashing in the sequence shown below to select other settings.

- The currently selected language indicator flashes on the display while the Language (setting) is selected in the above sequence.
- When the setting you want to change is flashing, use (2) and (3) to change it as described below.

To change this setting	Perform this button operation
Seconds	Press (2) to reset to 00.
DST on/off	Press (2) to toggle between Daylight Saving Time (DST displayed) and standard time (ST displayed).
Hour, Minutes, Year, Month, Day	Use (2) (+) and (3) (-) to change the setting.
Language	Use (2) and (3) to change the language setting.

- While the language indicator is flashing on the display, use (2) and (3) to cycle through the language indicators as shown below, until the one for the language you want to select is displayed.

Indicator	Language	Indicator	Language	Indicator	Language
ENG	English	DEU	German	ROM	Romanian
PRK	Portuguese	ITA	Italian	TUR	Turkish
ESP	Spanish	CZE	Czech	RUS	Russian
FRA	French	SWE	Swedish	JPN	Japanese
DUT	Dutch	POL	Polish		
DAN	Danish	GRC	Greek		

- Press (3) to exit the setting screen.
- The day of the week is automatically displayed in accordance with the date (year, month, and day) settings.
- See the "Day of the Week List" for information on abbreviations used.

About This Manual

- Button operations are indicated using the letters shown in the illustration.
- Each section of this manual provides you with the information you need to perform operations in each mode. Further details and technical information can be found in the "Reference" section.

- In addition to the day of the week display, the language setting also affects the type of characters you can input for the name in the Data Bank Mode and the text in the Day Counter Mode.
- Holding down (3) in the Timekeeping Mode displays the indicator for the currently selected language. Keeping (3) depressed for about two seconds changes to the Timekeeping Mode setting screen (indicated by the seconds flashing). If you accidentally display the setting screen, press (3) again to exit.

To toggle between 12-hour and 24-hour timekeeping

- In the Timekeeping Mode, press (2) to toggle between 12-hour timekeeping (indicated by A or P on the display), or 24-hour timekeeping.
- With the 12-hour format, the P (PM) indicator appears on the display for times in the range of noon to 11:59 p.m., and the A (AM) indicator appears for times in the range of midnight to 11:59 a.m.
- With the 24-hour format, times are displayed in the range of 0:00 to 23:59, without any indicator.
- The 12-hour/24-hour timekeeping format you select in the Timekeeping Mode is applied in all modes.

Daylight Saving Time (DST)

Daylight Saving Time (summer time) advances the time setting by one hour from Standard Time. Remember that not all countries or even local areas use Daylight Saving Time.

To toggle the Timekeeping Mode time between DST and Standard Time

- In the Timekeeping Mode, hold down (3) until the seconds start to flash, which indicates the setting screen.
- Press (2) to move the flashing to the DST on/off setting.
- Press (2) to toggle between Daylight Saving Time (DST displayed) and standard time (ST displayed).
- Press (3) to exit the setting screen.
- The DST indicator appears on the display to indicate that Daylight Saving Time is turned on in the Timekeeping, Alarm, and Day Counter Mode.

World Time

- The World Time shows the current time in 29 cities (29 time zones) around the world.
- The time settings of the Timekeeping Mode and the World Time Mode are independent from each other, so you must make separate settings for each.
- Whenever you change the time setting for any city in the World Time Mode, the settings of all other cities are changed accordingly.
- The UTC differential value indicates the number of hours difference in time between the currently selected time zone and UTC.
- All of the operations in this section are performed in the World Time Mode, which you enter by pressing (2).
