MATHEMATICS
PAPER 1

4004/1

NOVEMBER 2022 SESSION 2 hours 30 minutes

Candidates answer on the question paper

*Additional materials:
Mathematical Instruments*

Allow candidates 5 minutes to count pages before the examination.

This booklet should not be punched or stapled and pages should not be removed.

Time 2 hours 30 minutes

INSTRUCTIONS TO CANDIDATES

Write your Name, Centre number and Candidate number in the spaces at the top of this page.
Write your centre and candidate number in the box on the top right corner of every page of this paper.

Check that all the pages are in the booklet and ask the invigilator for a replacement if there are duplicate or missing pages.

Answer all questions.

Write your answers in the spaces provided on the question paper using black or blue pens.
If working is needed for any question, it must be shown in the space below that question.
Omission of essential working will result in loss of marks.

Decimal answers which are not exact should be given to three significant figures unless stated otherwise.

Mathematical tables, slide rules and calculators should not be brought into the examination room.

INFORMATION FOR CANDIDATES

The number of marks is given in brackets [] at the end of each question or part question.

This question paper consists of 19 printed pages and 1 blank page.

Mathematics O Level Paper November 2014

Clemens Wendtner

Mathematics O Level Paper November 2014:

International Practices to Promote Budget Literacy Harika Masud, Helene Pfeil, Sanjay Agarwal, Alfredo Gonzalez Briseno, 2017-08-09 Budget literacy is defined as the ability to read decipher and understand public budgets to enable and enhance meaningful citizen participation in the budget process It is comprised of two main parts i a technical understanding of public budgets including familiarity with government spending tax rates and public debt and ii the ability to engage in the budget process comprising of practical knowledge on day to day issues as well as an elementary understanding of the economic social and political implications of budget policies the stakeholders involved and when and how to provide inputs during the annual budget cycle Given that no international standards or guidelines have been established for budget literacy education to date this book seeks to address this gap by taking stock of illustrative initiatives promoting budget literacy for youth in selected countries The underlying presumption is that when supply side actors in the budget process governments simplify and disseminate budget information for demand side actors citizens this information will then be used by citizens to provide feedback on the budget However since citizens are often insufficiently informed about public budgets to constructively participate in budget processes one way to empower them and to remedy the problem of budget illiteracy is to provide budget literacy education in schools to youth helping them evolve into civic minded adults with the essential knowledge needed for analyzing their government's fiscal policy objectives and measures and the confidence and sense of social responsibility to participate in the oversight of public resources This book elaborates on approaches learning outcomes pedagogical strategies and assessment approaches for budget literacy education and presents lessons that are relevant for the development improvement or scaling up of budget literacy initiatives

Engaging Modern Brunei Hannah Ming Yit Ho, David Deterding, 2021-02-26 This book explores issues shaping and defining modern Bruneian identity It addresses the research gap regarding Brunei studies in terms of the language literature and culture of Brunei which with its bilingual education is uniquely positioned at the intersection of the Malay and western worlds The book analyses the linguistic literary and cultural modes that provide the backdrop for modern day instantiations of local identity as expressed through printed and online materials film art and social practices It compares Brunei English and Brunei Malay in the context of the literature and culture of Brunei Readers will find it useful as an essential resource for academic scholars university students and others interested in the study of Brunei Darussalam's language literature and culture It provides critical insights from an insiders perspective into the local identity of the culturally diverse Bruneian society

Behaviour for Learning Simon Ellis, Janet Tod, 2018-07-04 Behaviour for Learning offers teachers a clear conceptual framework for making sense of the many behaviour management strategies on offer allowing them to make a critical assessment of their appropriateness and effectiveness in the classroom and assisting them to promote closer links between behaviour and learning Now in a fully updated second edition the book focuses on how teachers can provide a safe and secure setting where positive relationships

are fostered placing increased emphasis on learning behaviours that contribute to pupils cognitive social and emotional development The book is full of practical approaches that can help teachers support pupils to achieve relate to others and develop behaviours that characterise self esteem confidence and resilience It includes chapters covering relationship with the curriculum relationship with self and relationship with others whole school approaches and the school behaviour policy reframing special educational needs dealing with more challenging behaviour transitions This second edition also includes an updated emphasis on the links between mental health behaviour and relationships in schools and reflects Department for Education advice for school staff changes to the National Curriculum and the new SEND Code of Practice Through the application of the Behaviour for Learning framework the book encourages teachers to address the needs of pupils who exhibit behavioural difficulties whilst still pursuing excellence in teaching and learning for all pupils It is a compelling and essential read for all trainees and practising teachers CPD coordinators and other professionals working with children in schools

An Open Book: What and How Young Children Learn From Picture and Story Books Jessica S. Horst, Carmel Houston-Price, 2016-01-21 Looking at and listening to picture and story books is a ubiquitous activity frequently enjoyed by many young children and their parents Well before children can read for themselves they are able to learn from books Looking at and listening to books increases children s general knowledge understanding about the world and promotes language acquisition This collection of papers demonstrates the breadth of information pre reading children learn from books and increases our understanding of the social and cognitive mechanisms that support this learning Our hope is that this Research Topic eBook will be useful for researchers as well as educational practitioners and parents who are interested in optimizing children s learning

Nature and Environment: The Psychology of Its Benefits and Its Protection Marc Glenn Berman, 2017-04-20 Our Research Topic section entitled Nature and the environment The psychology of its benefits and its protection will have two main lines The first line of articles will center upon cutting edge research showing how interacting with nature can affect health well being and overall improve cognition and affect Articles in this line will stress in what ways nature can improve psychological functioning and health and also discuss the theories and evidence as to why nature can improve psychological functioning For this line we welcome submission of articles that discuss the psychological health and well being benefits from interacting with nature as well as submissions that focus on theoretical considerations and underlying mechanisms that lead to the restorative effects of interacting with nature Given that nature can have a positive impact on psychological functioning and overall health it is also important to understand the variables that facilitate people s recognition of environmental issues that can help foster a more positive attitude towards the preservation of nature This

brings us to the second line of articles which will center upon the psychological mechanisms that make individuals more or less likely to accept the seriousness of environmental challenges such as climate change. Given the new cutting edge research in this field we may be able to make individuals more proactive in the protection of the environment and more accepting of policy measures required to mitigate climate change. We see this research topic as a way for psychological scientists to contribute substantially to an important area of public debate and policy. For this line we welcome articles that will focus on ways in which people respond to various framings of policy relevant information and how morality may play into the individuals policy views that center on climate change and environmental protection. **Yearbook of International**

Organizations 2013-2014 (Volumes 1a-1b) Union Of International Associations, Union of International

Associations, 2013-06-21 Volume 1 A and B covers international organizations throughout the world comprising their aims activities and events. *The Psychology of Magic and the Magic of Psychology* Amir Raz, Jay A. Olson, Gustav

Kuhn, 2016-11-18 Magicians have dazzled audiences for many centuries however few researchers have studied how let alone why most tricks work. The psychology of magic is a nascent field of research that examines the underlying mechanisms that conjurers use to achieve enchanting phenomena including sensory illusions misdirection of attention and the appearance of mind control and nuanced persuasion. Most studies to date have focused on either the psychological principles involved in watching and performing magic or neuromagic the neural correlates of such phenomena. Whereas performers sometimes question the contributions that modern science may offer to the advancement of the magical arts the history of magic reveals that scientific discovery often charts new territories for magicians. In this research topic we sketch out the symbiotic relationship between psychological science and the art of magic. On the one hand magic can inform psychology with particular benefits for the cognitive social developmental and transcultural components of behavioural science. Magicians have a large and robust set of effects that most researchers rarely exploit. Incorporating these effects into existing experimental even clinical paradigms paves the road to innovative trajectories in the study of human behaviour. For example magic provides an elegant way to study the behaviour of participants who may believe they had made choices that they actually did not make. Moreover magic fosters a more ecological approach to experimentation whereby scientists can probe participants in more natural environments compared to the traditional lab based settings. Examining how magicians consistently influence spectators for example can elucidate important aspects in the study of persuasion trust decision making and even processes spanning authorship and agency. Magic thus offers a largely underused armamentarium for the behavioural scientist and clinician. On the other hand psychological science can advance the art of magic. The psychology of deception a relatively understudied field explores the intentional creation of false beliefs and how people often go wrong. Understanding how to methodically exploit the tenuous twilight zone of human vulnerabilities perceptual logical emotional and temporal becomes all the more revealing when top down influences including expectation symbolic thinking and framing

join the fray Over the years science has permitted magicians to concoct increasingly effective routines and to elicit heightened feelings of wonder from audiences Furthermore on occasion science leads to the creation of novel effects or the refinement of existing ones based on systematic methods For example by simulating a specific card routine using a series of computer stimuli researchers have decomposed the effect and reconstructed it into a more effective routine Other magic effects depend on meaningful psychological knowledge such as which type of information is difficult to retain or what changes capture attention Behavioural scientists measure and study these factors By combining analytical findings with performer intuitions psychological science begets effective magic Whereas science strives on parsimony and independent replication of results magic thrives on reproducing the same effect with multiple methods to obscure parsimony and minimise detection This Research Topic explores the seemingly orthogonal approaches of scientists and magicians by highlighting the crosstalk as well as rapprochement between psychological science and the art of deception **Proceedings of the IRE.** Institute of Radio Engineers,1960 **Journal of Developmental Education** ,2015 Scientific American ,1963 Monthly magazine devoted to topics of general scientific interest Government Reports Announcements ,1974 Physics Briefs ,1994 Newsweek ,1963 Government Reports Announcements & Index ,1994 The British National Bibliography Arthur James Wells,1968 Cumulative Author Index to Psychological Abstracts ,1978 **Proceedings of the IRE.** ,1955 Aviation Week & Space Technology ,1963 Includes a mid December issue called Buyer guide edition **Host** **Bibliographic Record for Boundwith Item Barcode 30112050443578 and Others** ,2013
