La Fournaise Tome:

A Thirst for Wine and War Adam D. Zientek, 2024-02-13 Beginning in the fall of 1914 every French soldier on the Western Front received a daily ration of wine from the army At first it was a modest quarter litre but by 1917 it had increased to the equivalent of a full bottle each day The wine ration was intended to sustain morale in the trenches making the men more willing to endure suffering and boredom The army also supplied soldiers with doses of distilled alcohol just before attacks to increase their ferocity and fearlessness This strategic distribution of alcohol was a defining feature of French soldiers experiences of the war and amounted to an experimental policy of intoxicating soldiers for military ends A Thirst for Wine and War explores the French army s emotional and behavioural conditioning of soldiers through the distribution of a mind altering drug that was later hailed as one of the army s fathers of victory The daily wine ration arose from an unexpected set of factors including the demoralization of trench warfare the wine industry s fear of losing its main consumers and medical consensus about the benefits of wine drinking The army s related practice of distributing distilled alcohol to embolden soldiers was a double edged sword as the men might become unruly The army implemented regulations and surveillance networks to curb men s drinking behind the lines in an attempt to ensure they only drank when it was useful to the war effort When morale collapsed in spring 1917 the army lost control of this precarious system as drunken soldiers mutinied in the thousands Discipline was restored only when the army regained command of soldiers alcohol consumption Drawing on a range of archives personal narratives and trench journals A Thirst for Wine and War shows how the French army s intoxication of its soldiers constituted a unique exercise of biopower deployed on a mass scale **Hawaiian Volcanoes**

Rebecca Carey, Valérie Cayol, Michael Poland, Dominique Weis, 2015-03-16 Hawaiian Volcanoes From Source to Surface is the outcome of an AGU Chapman Conference held on the Island of Hawai i in August 2012 As such this monograph contains a diversity of research results that highlight the current understanding of how Hawaiian volcanoes work and point out fundamental questions requiring additional exploration Volume highlights include Studies that span a range of depths within Earth from the deep mantle to the atmosphere Methods that cross the disciplines of geochemistry geology and geophysics to address issues of fundamental importance to Hawai i s volcanoes Data for use in comparisons with other volcanoes which can benefit from and contribute to a better understanding of Hawai i Discussions of the current issues that need to be addressed for a better understanding of Hawaiian volcanism Hawaiian Volcanoes From Source to Surface will be a valuable resource not only for researchers studying basaltic volcanism and scientists generally interested in volcanoes but also students beginning their careers in geosciences This volume will also be of great interest to igneous petrologists geochemists and geophysicists **Dictionnaire D'archéologie Chrétienne Et de Liturgie, Publié Par Le R. P. Dom Fernand Cabrol ...**

Avec Le Concours D'un Grand Nombre de Collaborateurs Fernand Cabrol, 1928 **Communities under Fire** Alex Dowdall, 2020-04-22 Between 1914 and 1918 the Western Front passed through some of Europe s most populated and

industrialised regions Large towns including Nancy Reims Arras and Lens lay at the heart of the battlefield Their civilian inhabitants endured artillery bombardment military occupation and material hardship Many fled for the safety of the French interior but others lived under fire for much of the war ensuring the Western Front remained a joint civil military space Communities under Fire explores the wartime experiences of civilians on both sides of the Western Front and uncovers how urban communities responded to the dramatic impact of industrialized war It discusses how war shaped civilians personal and collective identities and explores how the experiences of military violence occupation and forced displacement structured the attitudes of civilians at the front towards the rest of the nation Drawing on a vast array of archival sources letters diaries and newspapers in English French and German it reveals the history of the Western Front from the perspective of its civilian inhabitants From Leningrad to Warsaw Hamburg and more recently Sarajevo and Donetsk urban violence has remained a feature of warfare in Europe turning cities into battlefields On each occasion civilian populations were at the heart of military operations and forced to adapt to life in a warzone This was also the case between 1914 and 1918 despite the myth that the First World War was predominantly a soldiers war The civilian inhabitants of the Western Front were among the first to suffer the full impact of modern industrialized war in an urban setting Communities under Fire explains the multiple ways by which these urban residents responded to were changed by succumbed to or survived the enormous pressures of life in a warzone
