Facing the Unknown Future Ina ter Avest, Cok Bakker, Julia Ipgrave, Silke Leonhard, Peter Schreiner, 2020 During the 20 year history of the European Network for Religious Education through Contextual Approaches ENRECA several books have been published on the subject of Religious Education from sociological psychological or anthropological perspectives and always in the contextual settings of national educational frameworks and other specific culturally bound phenomena Also very often an international comparative perspective was included The shared goal was not so much to reflect on religion as such and on its changing doctrines institutions and prescriptions but to try and understand religion in the specific European

contexts of secularization and the plurality of life orientations and to understand how religion becomes manifest in education in a variety of concrete policies and classroom practices reflecting various social issues This volume marking the 20th anniversary of ENRECA has a specific focus on the contextual dimension of time The Perennials Mauro F. Guillén, 2023-08-22 Get the best from accelerating social change with the new book from the bestselling author of 2030 and acclaimed thought leader Kirkus Mauro Guillén Adam Grant praises how the book invites us to rethink our careers our families and our future plans Find out why business leaders and bestselling authors around the world are calling the book sharply relevant and necessary William P. Lauder insightful and deeply researched Richard Florida and A must read Mohammed A. El-Erian In today's world the acceleration of megatrends increasing longevity and the explosion of technology among many others are transforming life as we now know it In The Perennials bestselling author of 2030 Mauro Guillén unpacks a sweeping societal shift triggered by demographic and technological transformation Guillén argues that outmoded terms like Boomers Gen X Millennials and Gen Z have long been used to pigeonhole us into rigid categories and life stages artificially preventing people from reaching their full potential A new postgenerational workforce known as perennials individuals who are not pitted against each other either by their age or experience makes it possible to liberate scores of people from the constraints of the sequential model of life and level the playing field so that everyone has a chance at living a rewarding life Guillén unveils how this generational revolution will impact young people just entering the workforce as well as those who are living and working longer This multigenerational revolution is already happening and Mauro Guillén identifies the specific cultural organizational and policy changes that need to be made in order to switch to a new template and usher in a new era of innovation powered by the perennials Knowledge, Power and Young Sexualities Tamara Shefer-Jeff Hearn, 2022-07-27 This book troubles the ways young people have been constructed as trouble through critical readings of the effects and impacts politically and ideologically globally and locally of scholarship and practice directed at South African young people's sexualities over the last three decades of addressing HIV GBV and other sexual and gender justice challenges Located primarily in South Africa the book speaks to global concerns about the politics of knowledge and transnational flows of information and practice with respect to gender and sexuality and is framed by global imperatives and analyses located in transnational postcolonial and intersectional feminist frameworks The key argument developed here and explored in relation to several different forms of research and practice is that efforts to challenge HIV GBV and unequal sexual and gender practices among young people particularly as evident in heterosexual relationships have tended to reflect and reproduce renewed orthodoxies about sexuality gender family and young people while bolstering global and local racist classist othering of certain communities and nation states and reiterating the innocence and authority of those already privileged and centred The book contributes to critical reflexive work on global practices of knowledge and its complex enmeshment with power in the terrain of sexual and gender justice work aimed at young people **Narcissism and Conspicuous Consumption of**
