Acevedo,2025-09-17 The promotion of health in universities is of great importance as it allows for the encouragement of
healthy lifestyles and the prevention of diseases among students teaching staff and administrative personnel The university is
a conducive environment for the promotion of healthy habits since firstly it is usually the moment when the students make
decisions under their responsibility and secondly it is a place where academic sports and social activities take place so it is
also an ideal moment to promote changes that can be transferred to society and the rest of the individual s life Health
promotion in universities can cover several areas such as healthy eating physical exercise prevention of addictions emotional
