La Communication Gouvernementale En Europe Analyse Comparative:

La communication gouvernementale en Europe Dominique Sellier, 2006-03-01 La feuille de route des services d'information gouvernementaux de l'Union européenne pourrait être faite connaître, faire comprendre, faire accepter. Objectifs minimalistes et généraux mais quelles pratiques concrètes recouvrent-ils ? Comment fait-on connaître ? À qui ? Par quels moyens ? Met-on l'accent sur les campagnes grand public ? Privilégie-t-on les relations avec la presse pour en faire le relais d'un message ? De l'acteur technique de la publicité au diffuseur méthodique de l'information, ce livre invite à parcourir les subtilités de la mosaïque européenne de l'information gouvernementale.

The Future of Cities and Energies in Western Europe Philippe Hamman, Nadine Roudil, 2025-01-27 The Future of Cities and Energies in Western Europe explores a variety of theoretical and empirical approaches to researching energy issues in Western European cities as well as urban energy transition. It serves as a collection of materials, instruments, ideas, and theories to embrace this subject. The contributions are interdisciplinary, drawing from areas such as sociology, urbanism, geocology, architecture, and political science, thus demonstrating that this research topic, which is now gaining full legitimacy in traditional fields, requires open and reflexive dialogues.

Brokering Europe Antoine Vauchez, 2015-02-26 Since the 1960s, the nature and the future of the European Union have been defined in legal terms. Yet we are still in need of an explanation as to how this entanglement between law and EU polity building emerged and how it was maintained over time. While most of the literature offers a disembodied account of European legal integration, Brokering Europe reveals the multifaceted roles Euro lawyers have played in EU polity, notably beyond the litigation arena. In particular, the book points at select transnational groups of multipositioned legal entrepreneurs which have been in a situation to elevate the role of law in all sorts of EU venues. In doing so, it draws from a new set of intellectual resources: field theory and empirical strategies only very recently mobilized for the study of the EU. Grounded on an extensive historical investigation, Brokering Europe provides a revised narrative of the constitutionalization of Europe.

The Road to Social Europe Jean-Claude Barbier, 2013 In the wake of the Greek and Irish crises and at a moment when solidarity between states is hotly debated on a daily basis at EU level, it is important to understand how solidarity can happen at all. The Road to Social Europe reviews the development of political, cultural, and social processes since the nineteenth century, showing how social protection and social justice have gradually become interwoven with systems of social protection or welfare states. Grounded on extensive empirical research conducted in many EU countries and in the European Commission's administration over twenty years, the book provides a cultural analysis of welfare systems in Europe. It also presents an original enquiry into the importance of languages for politics in Europe, for the politics of welfare, and for sociological research. It shows how sociological and ethnographic analysis can help in understanding the current and future challenges of European integration that rely unilaterally on functional economics. This in-depth sociological analysis of European diversity will appeal to a wide audience of students and scholars of sociology.
