Health Informatics - E-Book Ramona Nelson, Nancy Staggars, 2016-12-08. Awarded second place in the 2017 AJN Book of the Year Awards in the Information Technology category. See how information technology intersects with health care. Health Informatics: An Interprofessional Approach, 2nd Edition prepares you for success in today's technology filled healthcare practice. Concise coverage includes information systems and applications such as electronic health records, clinical decision support, telehealth, ePatients and social media tools as well as system implementation. New to this edition are topics including data science and analytics, mHealth, principles of project management and contract negotiations. Written by expert informatics educators Ramona Nelson and Nancy Staggars, this edition enhances the book that won a 2013 American Journal of Nursing Book of the Year award. Experts from a wide range of health disciplines cover the latest on the interprofessional aspects of informatics, a key Quality and Safety Education for Nurses (QSEN) initiative and a growing specialty area in nursing. Case studies encourage higher level thinking about how concepts apply to real world nursing practice. Discussion questions challenge you to think critically and to visualize the future of health informatics. Objectives, key terms and an abstract at the beginning of each chapter provide an overview of what you will learn. Conclusion and Future Directions section at the end of each chapter.

describes how informatics will continue to evolve as healthcare moves to an interprofessional foundation NEW Updated chapters reflect the current and evolving practice of health informatics using real life healthcare examples to show how informatics applies to a wide range of topics and issues NEW mHealth chapter discusses the use of mobile technology a new method of health delivery especially for urban or under served populations and describes the changing levels of responsibility for both patients and providers NEW Data Science and Analytics in Healthcare chapter shows how Big Data as well as analytics using data mining and knowledge discovery techniques applies to healthcare NEW Project Management Principles chapter discusses proven project management tools and techniques for coordinating all types of health informatics related projects NEW Contract Negotiations chapter describes strategic methods and tips for negotiating a contract with a healthcare IT vendor NEW Legal Issues chapter explains how federal regulations and accreditation processes may impact the practice of health informatics NEW HITECH Act chapter explains the regulations relating to health informatics in the Health Information Technology for Education and Clinical Health Act as well as the Meaningful Use and Medicare Access CHIP Reauthorization Act of 2015

Promoting Science Learning amongst Grade VIII Students through Multiple Intelligence Teaching Strategies Sonam Rinzin, Sonam Yudon, Jigme Tshering, Tashi Namgyel, 2018-04-13 Research Paper postgraduate from the year 2017 in the subject Pedagogy School Pedagogics Royal University of Bhutan language English abstract Quality science education amongst the youth has become crucial to survive in the ever challenging 21st century world Stakeholders at different levels are concerned that science education in Bhutan is not up to expected level Science teachers of School X also experienced students poor performance Predominance of teacher centered mode of instruction traditional method is one factor that hindered science learning Various literatures have cited the inherent potential of Multiple Intelligence MI teaching strategies to promote science learning and provide students the learning platform depending upon their well developed intelligence This study was intended to promote science learning amongst the grade VIII students of School X through MI teaching strategies 37 students were randomly sampled for the study and 11 students were selected from the sample population for the in depth interview The data were collected twice baseline data before intervention with MI strategies and post line after the MI intervention strategies Science teachers intervened with teaching strategies based on eight intelligences for the period of two months addressing the learning barriers identified from base line data The base line and post line data were analyzed and compared The study revealed that MI teaching strategies upscale the science learning and understanding amongst the students It indicated that incorporating MI teaching strategies improve science learning in students by fostering variety of teaching learning activities promoting different types of teaching learning material and encouraging students to actively participate in learning activities in the class
