Science is present all around us, from the smallest things such as needles to large objects such as aeroplanes. Science is also an essential part of our everyday lives because it helps us solve everyday problems, enhances our health, and helps society progress.

Science has taken the foremost place in human life. Every branch of science can be seen all around us. Computer Science can be seen in mobile phones, smartwatches and computers; Medical Science is there in the medicines we take; Communication in today's world is hardly possible without applying laws of physics.

Science primarily exists around us in the form of nature. It is there in all sorts of phenomena such as the movement of the earth around the sun, the behaviour of the human body, the scattering of light in our atmosphere etc.
