Dual-use life science research and biosecurity in the 21st Century: Social, Technical, Policy, and Ethical Challenges Jonathan E. Suk,Kathleen M. Vogel,Amanda Jane Ozin,2015-06-04 In September 2011 scientists

announced new experimental findings that would not only threaten the conduct and publication of influenza research but would have significant policy and intelligence implications The findings presented a modified variant of the H5N1 avian influenza virus hereafter referred to as the H5N1 virus that was transmissible via aerosol between ferrets These results suggested a worrisome possibility the existence of a new airborne and highly lethal H5N1 virus that could cause a deadly global pandemic In response a series of international discussions on the nature of dual use life science arose These discussions addressed the complex social technical political security and ethical issues related to dual use research This Research Topic will be devoted to contributions that explore this matrix of issues from a variety of case study and international perspectives

Youde,2014-08-07 This new Handbook presents an overview of cutting edge research in the growing field of global health security Over the past decade the study of global health and its interconnection with security has become a prominent and rapidly growing field of research Ongoing debates question whether health and security should be linked which if any health issues should be treated as security threats what should be done to address health security threats and the positive and negative consequences of securitizing health In academic and policy terms the health security field is a timely and dynamic one and this handbook will be the first work comprehensively to address this agenda Bringing together the leading experts and commentators on health security issues from across the world the volume comprises original and cutting edge essays addressing the key issues in the field and also highlighting currently neglected avenues for future research The book intends to provide an accessible yet sophisticated introduction to the key topics and debates and is organised into four key parts Health Securities the fundamental conceptual issues historical links between health and security and the various ways of conceptualising health as a security issue Threats those health issues which have been most frequently discussed in security terms Responses the wide range of contemporary security driven responses to health threats Controversies the securitization of health its impact on rights and justice and the potential distortion of the global health agenda This book will be of great interest to students of global health security public health critical security studies and International Relations in general

Routledge Handbook of Ethics and War Fritz Allhoff,Nicholas G. Evans,Adam Henschke,2013-06-26 This new Handbook offers a comprehensive overview of contemporary extensions and alternatives to the just war tradition in the field of the ethics of war The modern history of just war has typically assumed the primacy of four particular elements jus ad bellum jus in bello the state actor and the soldier This book will put these four elements under close scrutiny and will explore how they fare given the following challenges What role do the traditional elements of jus ad bellum and jus in bello and the constituent principles that follow from this distinction play in modern warfare Do they adequately account for a normative theory of war What is the role of the state in warfare Is it or should it be the primary actor in just war theory Can a just war be understood simply as a response to territorial aggression between state actors or should other actions be accommodated under legitimate recourse to armed conflict Is the idea of combatant qua state employed soldier a valid ethical characterization of actors in modern warfare What role does the technological backdrop of modern warfare play in understanding and realizing just war theories Over the course of three key sections the contributors examine these challenges to the just war tradition in

a way that invigorates existing discussions and generates new debate on topical and prospective issues in just war theory This book will be of great interest to students of just war theory war and ethics peace and conflict studies philosophy and security studies **Rural America in a Globalizing World** Conner Bailey,Leif Jensen,Elizabeth Ransom,2014 This fourth Rural Sociological Society decennial volume provides advanced policy scholarship on rural North America during the 2010 s closely reflecting upon the increasingly global nature of social cultural and economic forces and the impact of neoliberal ideology upon policy politics and power in rural areas The chapters in this volume represent the expertise of an influential group of scholars in rural sociology and related social sciences Its five sections address the changing structure of North American agriculture natural resources and the environment demographics diversity and quality of life in rural communities

Space Life Sciences M. P. Bernstein,Rafael Navarro-González,F.
