in the managerial accounting course keep the students motivated throughout the course and teach them accounting in a way that connects conceptual understanding to the real world so students will be able to analyze and apply their managerial accounting knowledge successfully in careers as managers in the world of business. We will engage and motivate students by presenting accounting in the context of real recognizable companies like Apple, Starbucks, and California Pizza Kitchen, then integrate those companies throughout the chapters. This will allow students to see accounting information being used to make real business decisions in companies that are part of their lives, helping them connect their learning to the real world.
