Manual 4 Santillana:

The Legacy of Human Rights Violations in the Southern Cone Luis Roniger, Mario Sznajder, 1999-07-15 The new democracies of the Southern Cone have publicly professed to reject and condemn the uses of the state power in various forms against citizens under military rule thus dissociating themselves from their predecessors And yet the experiences of military rule have become a grim legacy raising major issues and dilemmas to the forefront of the public agenda The Legacy of Human Rights Violations in the Southern Cone Argentina Chile and Uruguay analyses in a systematic and comparative way the struggles and debates the institutional paths and crises that took place in these societies following redemocratization in the 1980s and 1990s as they confronted the legacy of violations committed under previous authoritarian governments and as the democratic administrations tried to balance normative principles and political contingency The book also traces how these trends affected the development of politics of oblivion and memory and the restructuring of collective identity and solidarity following redemocratization Oxford Studies in Democratization is a series for scholars and students of comparative politics and related disciplines The series will concentrate on the comparative study of the democratization process that accompanied the decline and termination of the cold war The geographical focus of the series will primarily be Latin America the Caribbean Southern and Eastern Europe and relevant experiences in Africa and Asia Libros de edición argentina, 1987 **El-Hi Textbooks in Print**, 1984 **Libros argentinos**, 1987 Bibliografía argentina Latbook Librería García Cambeiro, 1999 Mexico and the Southwest Collection California State University, Fullerton. Stone, 2003-09-02 The Presented Past is concerned with the differences between the comparatively static well understood way in which the past is presented in schools museums and at historic sites compared to the approaches currently being explored in contemporary archaeology It challenges the all too frequent representation of the past as something finished understood and objective rather than something that is constructed and therefore open to co existing interpretations and constant re interpretation Central to the book is the belief that the presentation of the past in school curricula and in museum and site interpretations will benefit from a greater use of non documentary sources derived from archaeological study and oral histories The book suggests that a view of the past incorporating a larger body of evidence and a wider variety of understanding will help to invigorate the way history is taught The Presented Past will be of interest to teachers archaeologists cultural resource managers in fact anyone who is concerned
