Citation

Reference list

The full details of all the sources you have cited in your work, listed at the end of your assignment, in alphabetical order.

Formatting citations

For most sources, the only information you need when citing within the text of your work is the author's surname and the year of publication.

- In the absence of an author's name use the name of the organisation instead.
- If there is no date state (no date) in place of the year
- Provide the page number when using a direct quote. It may also be useful to include a page number for a paraphrase, to direct the reader to a particular part of the source you are referring to
