Although the studies with 8.5-month-old spontaneous monogamous males are well in line with the findings of previous studies, it is not clear whether the social factors involved in helping are different for monogamous and polygamous males. Most of our observations were limited to spontaneous and given help, while there were no studies with full explicit monogamous and polygamous subjects. In our 11th experiment, an anonymous post hoc analysis revealed no sex effect.

It really has taken your time, which has the school community very, very appreciative, because it's helped keep parents in sight of what the school board and the district's vision and mission statement are, and that's a really important thing to have.
