Integrating Multiple Literacies in K-8 Classrooms Janet C. Richards, Michael C. McKenna, 2003-05-14 This text gives prospective and practicing teachers a comprehensive understanding of how to teach multiple literacies in elementary and middle school classrooms All of the literacies dance music visual arts popular culture media and computer technologies are integrated with reading and writing Balanced treatment is given to theoretical perspectives and practical applications The text also features authentic cases written by preservice teachers and commentaries on the cases from practitioners and university professors The cases are designed to prepare future teachers for the PRAXIS teacher certifying exam and others offered in many states Three theoretical chapters support the practical applications Chapter 1 addresses the benefits of writing and analyzing cases and the specific attributes of exemplary teaching cases and offers guidelines for teachers to author their own case narratives and questions for analyzing and discussing case issues with peers Chapter 2 discusses the role of electronic symbol making and multiple sign systems in children's literacy and how children use symbols to receive and express meaning Chapter 3 offers a theoretical framework that helps define and enable teachers to use the new literacies of Internet technology and provides a strong rationale for expanding traditional definitions of literacy

How Students Affect a Teacher Michelle Warren, Emerson College, 2007 In the Fall of 2006 I completed my student teaching in two elementary schools within the same district This project follows my struggles and revelations in teaching five Kindergarten classes I initially judged the classes based on their educational levels classroom demographics school environment and socio economic status cultural background Through lesson planning and reflection I discovered what does not work when teaching Kindergarten drama classes I also found how valuable effective classroom management techniques can be not only in leading successful lessons but in improving my own confidence and adaptability In the end those first judgements were much less meaningful as I learned how to appreciate the individual students and be flexible enough to make my lessons work for all five classes I taught abstract

Schools and Kindergartens Mark Dudek, 2007-03-02 The importance of education in a global economy is undisputed and in the wake of international assessment studies schools and kindergartens have become the focus of considerable public interest As a new generation of educational environments are designed and built this Design Manual helps architects to grasp the underlying educational theories and how they can be realized in built form so that the building fulfills its role as a 3 dimensional curriculum plan Over 80 international case studies covering all school types are examined and explained in the context of varying national and cultural education approaches Among the key themes analyzed are the impact of modern communication technology acoustic and lighting design sustainability internal circulation and outdoor spaces renovation and adaptation to changing requirements
